FLIERS BLAZE TRAIL ACROSS HUDSON BAY COUNTRY

Wheat At Winnipeg Touches New High Level For The Year

July Future Closes 4½ Cents a Bushel Above Yesterday's Figure After Rising to Top Mark of \$1.45; Only Scattered Showers on the Prairies.

Winnipeg, July 4.—A few scattered showers in widely-separated districts of the prairies failed to improve grain traders' confidence in the growing wheat crop and the local market witnessed another upheaving of prices to-day that left the high water mark of yesterday far behind.

Wheat was strong at the close and up 4½ for the session after touching a new high for the year of \$1.45 for the July futures. October wheat was up 3½ at the close and December 2½.

LOSSES IN FIRES IN CALIFORNIA ARE \$1,250,000

300 Lose Summer Homes in Mill Valley, Near San Francisco

San Francisco, July 4.—The fire demon continued to feast to-day upon the choice scenery and pretty homes of Mill Valley and upon ranches, forests and grain fields elsewhere in California and in Arizona.

In two places—in the canyons and ridges above Mill Valley and in the Apache Indian reservation of eastern Arizona—the demon still ate greedily. The Mill Valley fire was believed to have been diverted from the town and surrounding residential districts, but was crawling up the wooded slopes of Mount Tamalpais.

MARLER IS TO SPEND TEN DAYS IN THIS CITY

Canada's First Minister to Japan to Speak at Dinner

Vancouver, July 4.—At the request of the Federal Government, the Vancouver Board of Trade has arranged an itinerary for the tour through British Columbia, of Hon. Herbert Marler, newly appointed Canadian Minister to Japan, who will arrive here August 5.

Mr. Marler's schedule in Victoria is as follows: Joint dinner, Canadian Club and Chamber of Commerce, Wednesday, August 7, 6:15 p.m., in the ballroom of the Empress Hotel. Balance of the time will be spent visiting in Victoria and its vicinity.

MAINLAND CADETS COME TO CAMP HERE

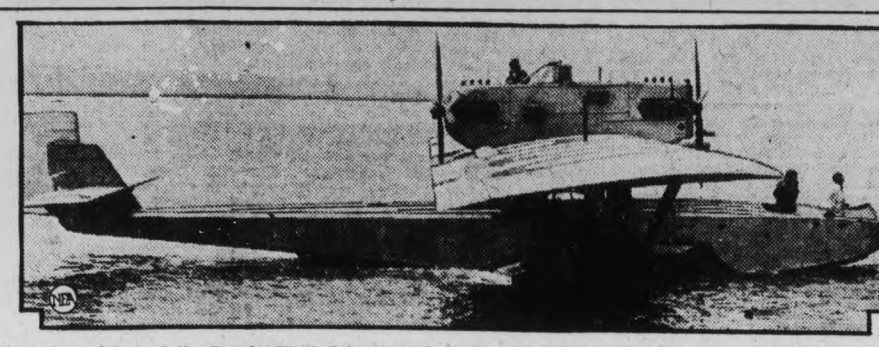

Vancouver, July 4.—Released a few days ago from school for the long midsummer vacation and with high expectations of good times to come, 400 members of the 101st School Cadet Regiment left Vancouver for Victoria at 10:30 a.m. to-day to go into annual camp at Rodd Hill, Esquimalt. A number of Burnaby, New Westminster and Chilliwack cadets accompanied them.

At Rodd Hill the regiment will be under command of Captain E. M. Macbrayne, M.C., of the permanent corps, and will be subject to military discipline throughout the period of the camp, which will last until July 11.

CANADIAN-CUBAN PARCEL POST TREATY TO BE RATIFIED

Havana, July 4.—Cuba's proposed parcel post treaty with Canada is expected to be signed and ratified at an early date, according to a State Department report this morning. Preparation of the treaty has been under way for some time, but various concessions asked by Cuba on its cigars and cigarettes going into Canada caused delays. These difficulties are said to have been adjusted.

At Gibraltar To-day; Rescued Franco Plane

Above is a picture of the Dornier-Wahl flying boat in which Major Ramon Franco and his three Spanish companions floated for a week on the Atlantic in the Azores region. It was taken by the British aeroplane carrier Eagle to Gibraltar, which place the fliers and the British officers who rescued them left yesterday for Madrid, where to-day they received a great welcome from hundreds of thousands.

INDIAN WOMAN IN ONTARIO WILDS KILLS BEAR WITH SMALL AXE

Sault Ste. Marie, Ont., July 4.—Frances Zukigiesek, an Indian woman of Franz, Ont., battled valiantly in that district yesterday against a bear which attacked her as she was inspecting traps near her home. Carrying a papoose on her back, the woman was greatly handicapped when the bear, which was followed by two cubs, charged at her with savage fury. Armed only with a small axe, the woman fought fifty minutes and finally succeeded in killing the bear, escaping herself with a few scratches. The animal was a large one. The cubs escaped into the bush.

Franz is a village on the Canadian Pacific Railway 135 miles north of here.

C.N.R. HOTEL IS TO BE BUILT IN CHARLOTTETOWN

Thornton Tells Prince Edward Islanders Site to Be Acquired Soon

Charlottetown, P.E.I., July 4.—A Canadian National hotel will be erected in Charlottetown, according to an announcement made by Sir Henry Thornton at a Board of Trade banquet last night.

Sir Henry said he had looked over areas during the day and a site would be acquired as soon as possible. He had been a convert from the start of the discussion. The chief hotel of the capital of Canada's island province had been destroyed by fire and the erection of one to replace it would be a new recognition for the province and the city.

We stand committed to that proposition," said the president.

NO COMPLAINTS

Sir Henry, who arrived on the island Tuesday morning, was given a cordial welcome at Summerside and Charlottetown. Commenting on his reception, he said his present visit to Prince Edward Island was unique among his journeys in Canada, because on all sides he had found satisfaction with the railway system's operations.

He then announced that tenders for the new car ferry between the island and the mainland would be called for within a few days.

Sir Henry left for Halifax after the banquet.

U.S. TO-DAY BIG PLAYGROUND

New York, July 4.—The United States became one huge playground to-day as millions throughout the land turned to holiday pursuits to celebrate the one hundred and fifty-third anniversary of the signing of the Declaration of Independence.

In foreign capitals members of the United States colonies displayed their flags on their homes and business places and invited citizens of their adopted country to join in their celebrations.

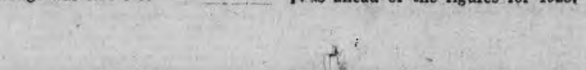

LIFESAVERS BUSY AT TORONTO BEACHES

Toronto, July 4.—Lashed by a southeast wind, the waters of Lake Ontario rose so high in the beaches district here to-day the lifesaving crew was called to help a number of residents from their homes in boats. At noon the waves began to pound on the newly-installed groynes, which proved practically useless in holding back the worst flood in years. At 2 o'clock the violence of the storm was increasing.

A call was sent for emergency equipment to rescue a man who was marooned in a canoe 200 feet off shore and was unable to land. A lifesaver attempted to reach him without success.

SCOTTISH RIFLEMEN WIN MATCH

Team From Victoria Regiment Captures B.C. Electric Team Match

Score 486 Out of Possible 525; University Cadets Win Shield

Scoring 486 out of a possible 525 the Sixteenth Canadian Scottish of Victoria won the B.C. Electric team match for the second year in succession in the B.C.R.A. prize meet at Heil's Range to-day. The competition is open to teams of five previously named members of the B.C.R.A., the prizes being awarded for the aggregate scores in the Macdonald Brier match over distances of 200, 300 and 600 yards.

As the Canadian Scottish won this match last year, the B.C. Electric Cup now becomes their permanent property. The Fifth C.G.A. took second place with 481. The Vancouver Rifle Association was third with 475.

In the Wilkerson Shield match, open to all cadet units of the Province, the University "A" team took first place with a score of 159. The school entered three teams in this event and were the only cadet unit represented.

Conditions on the range this morning were excellent, with good light and a slight wind.

JUDGE ADMITS SON TO BAR

W. C. Murphy Among Four Vancouver Lawyers Who Took Oath To-day

Mr. Justice Murphy had the pleasure of presiding at the ceremony in which his son was one of four candidates called to the bar this morning.

The candidates were William Cameron Murphy, David Robert Vercher, Thomas McCulloch Lyall and Thomas James Baillie. The first three were called to the bar as barristers and admitted solicitors, while the fourth, already practicing as a solicitor, was called to the bar.

W. C. Moresby, K.C., Senior Bench and past president of the Victoria Bar Association, introduced the candidates, and remarked the occasion would be an auspicious one for his Lordship.

Mr. Justice Murphy remarked that it was a particularly pleasant duty for him on this occasion. He trusted the candidates would be successful, urged them to remember their oath of office and to honor the profession to which they belonged, a profession on which the foundation of modern society depended.

BERRY CROP NEARS END

Saanich Strawberry Crop Past Peak of Production

The strawberry harvest in Saanich is rapidly declining in volume since passing the peak at the close of last week, and the bulk of the pickers will be released from the fields within a few days.

A substantial advance in prices is expected locally at the close of this week.

Due to the late season, maturity of many tons of berries was delayed until the imminence of the holiday prevented continuance of heavy shipments to prairie markets. As a result, export of fresh fruit was halted. The heavy peak rush of berries was diverted to the processing plant for later marketing, and the prairie supply was cut to forty cars.

ADVISED TO CHANGE

While the season has been as successful as was anticipated, the Saanich and Gordon Head growers are expected to give close study to the advice of Market Commissioner J. A. Grant that the Magoon variety be replaced with the Royal Sovereign, but to-day, after ten hours of continuous rain, conditions were miserable and the ground was waterlogged.

Captain W. G. Colquhoun of Victoria, team adjutant, states the Canadians are physically fit and are shooting up to expectations.

Lieut. Desmond Burke of Ottawa, former winner of the King's Prize, Private T. M. Norton of Hamilton and Lieut. J. W. Houlton of Sherbrooke, Que., have entered the Queen Mary Competition.

In yesterday's shooting, Petty Officer Thwaites of Portsmouth won the gold medal for the best shot in the British navy.

Chicago-to-Berlin Plane Over Ungava On Its Long Flight

Three Men Hope to Reach Capital of Germany Five Days After Departure From the Windy City; Greenland-Iceland and Iceland-Berlin Are Planned Hops.

Chicago, July 4.—From out of the Canadian north-land to-day came the droning monotone of a radio that told The Chicago Tribune its amphibian plane, the "untin" Bowler, was soaring over the wilderness of the Hudson Bay country toward Berlin by way of Greenland.

At 10:13 a.m. the steady buzz faded out for a time and The Tribune believed the plane had landed then at Great Whale, a trading post 400 miles from its second day starting point, Lake Remi, Ontario.

At 10:13 a.m. came the signal of a take-off and at 2:30 the pre-arranged radio note indicated the Bowler was still in the air. Whether this second take-off was from Great Whale, with Port Burwell its next station, or whether it was a new start from Rupert House, on the southern coast of James Bay, The Tribune could not learn. Ottawa messages had said the plane had turned back to Rupert House because of poor visibility.

Great Whale is on the southern part of the eastern coast of Hudson Bay. Port Burwell is at the eastern entrance of Hudson Strait.

NAVIGATION DIFFICULTIES

Ottawa, July 4.—The Department of Marine and Fisheries received a message from its station at Port Burwell to-day stating the plane "untin" Bowler, had taken off from Rupert House this morning, but was returning because of low visibility.

The "untin" Bowler, which is owned by The Chicago Tribune and is flying from Chicago to Germany by the northern Great Circle route, left Remi Lake, Ont., where it arrived yesterday from Chicago, early this morning for Great Whale, 400 miles to the north. Rupert House is about half way between Remi Lake and Great Whale.

LEAVE REMI LAKE

Monroebank, Ont., July 4.—The Chicago "untin" Bowler hopped off from Remi Lake at 5:58 o'clock this morning and headed for Great Whale, the next stop on the flight to Berlin.

A load of fuel was placed aboard the plane at Remi Lake, where an Ontario (Concluded on Page 17)

ORDERS \$100,000 PAID INTO COURT

Judge Grants Application For Aged Prospector in Big Missouri Case

On the application of P. J. Sinnott in Supreme Court Chambers this morning payment into court of \$100,000, representing the claim awarded to William F. Harris, aged prospector, in connection with his action for one-third interest in Big Missouri claims, was ordered by Mr. Justice Murphy.

The amount represents the judgment in his favor delivered by Chief Justice Morrison following an action against Daniel Lindberg in which the veteran prospector rested his claim mainly on a verbal agreement made, as was often the custom among pioneer gold seekers. Harris claimed to be the original discoverer of claims which have since been developed into properties of enormous value.

The \$100,000 was paid into the Bank of Commerce of Vancouver a year ago and at that time was attached by Mr. Sinnott, who did not, however, ask for payment into court until to-day. It has drawn interest at the rate of three per cent, representing roughly \$5,000 since that time.

Pointing out the judgment of the Chief Justice has been appealed, R. M. Macdonald asked that the money be allowed to remain in the bank so that its earning would not be impaired. Security would be "tendered for the appeal," he said. His request was refused, the judge seeing no other action could take in view of the judgment and the garnishee.

Mrs. Winston Churchill Undergoes Operation

London, July 4.—Mrs. Winston Churchill, wife of the former Chancellor of the Exchequer, underwent a successful throat operation to-day intended to prevent recurrence of acute mastoiditis, for which she was operated on seventeen months ago. Her condition shows satisfactory progress.

DUSTIN FARNUM DIES AT NEW YORK

New York, July 4.—Dustin Farnum, prominent actor, died to-day. He was born at Hampton Beach, N.H., in 1874 and first appeared on the stage in "The Hidden Hand," while still at school.

CANADIANS SHOW WELL IN EARLY TESTS AT BISLEY

Bisley Camp, Eng., July 4 (Canadian Press Cable)—The Canadian marksmen here for the National Rifle Association's Empire meet next week have had a good sample of the variability of English weather. The ranges were bathed in strong sunshine yesterday, but to-day, after ten hours of continuous rain, conditions were miserable and the ground was waterlogged.

Captain W. G. Colquhoun of Victoria, team adjutant, states the Canadians are physically fit and are shooting up to expectations.

Lieut. Desmond Burke of Ottawa, former winner of the King's Prize, Private T. M. Norton of Hamilton and Lieut. J. W. Houlton of Sherbrooke, Que., have entered the Queen Mary Competition.

In yesterday's shooting, Petty Officer Thwaites of Portsmouth won the gold medal for the best shot in the British navy.

NEW BASIS FOR DISCUSSION OF MIGRATION

Thomas, Soon to Visit Canada, Tells British Commons of His Hopes

London, July 4.—Rt. Hon. J. H. Thomas, Lord Privy Seal and Minister of Employment, plans to go to Canada when Parliament rises at the end of the present month to discuss with Canadian Government officials the subject of British migration to Canada.

Mr. Thomas made this announcement in the House of Commons yesterday in the course of his eagerly awaited exposition of the Labor Government's scheme for dealing with unemployment in Great Britain.

The Minister stressed that in any discussion of migration with the Dominions, nothing would do more harm than the suggestion that Britain wanted to solve her unemployment problem at their expense.

"They will resent it and resent it bitterly," he said. "I believe migration is a problem that has to be got on the spot. It is something which has to be discussed in all its bearings, because anyone who has visited Canada and knows it as I know it, knows perfectly well the remarkable change from an agricultural to an industrial population that is taking place there.

Our migration schemes have been based on the assumption that agriculturists alone were wanted. That is not true to-day. Equally, labor here has safeguarded its standards by saying: 'No, we are not going to have people forced on us to lower and break down our standards.' I propose to visit Canada myself immediately the House rises, to discuss the whole problem."

ATTITUDE OF CONSERVATIVES
As Mr. Thomas outlined his employment proposals—lengthily diversified but substantial schemes—the Conservatives continually greeted him with ironical cheers. Mr. Thomas declared the Government had no intention of merely spending money without regard either to the consequences or to the benefit for the community.

DISARMAMENT DISCUSSION
On the subject of disarmament and safeguarding, Mr. Lloyd George, leader of the Liberals, wished the Labor Party hearty success.

He hoped, however, that the Premier would carefully consider the situation before committing himself to a discussion of disarmament with one power in the absence of the others. This would endanger confronting the other naval powers with an accomplished fact.

CHURCHILL SPEAKS
Rt. Hon. Winston Churchill indicated the Conservatives were planning to give the Labor Government an opportunity to work out its programme at least until early in 1930. He said the Conservative opposition would expect the Government to submit a motion of confidence early next year so the House might review and vote upon the political situation which had developed by then.

In the course of his remarks Mr. Churchill said: "The central dominating fact of this Parliament is that so long as the Ministers are content to administer, and by administration to fortify the capitalist system of civilization on which we have grown great and on which the United States is growing greater, there is no reason why they should not enjoy, although they are not a substantial majority of the country, a lengthy turn of office."

"But the moment they make any attempt to carry into action any of those fundamental vices or fallacies upon which the whole structure of our party has been built up, and which has been their inspiration, from that moment they would be swept from office."

CONSERVATIVE AMENDMENT
London, July 4.—The official Conservative amendment to the address in reply to the Speech from the Throne, tabled in the Commons last night, reads:

"Failure of Your Majesty's Ministers to make any plain declaration of their policy in regard to safeguarding, the McKenna and analogous duties, and to the maintenance of imperial preference creates a growing feeling of uncertainty prejudicial to trade and the employment of the people."

Sir Philip Cunliffe-Lister, former President of the Board of Trade, probably will move the amendment next Monday.

POLICE LEADERS DEBATE USE OF GUNS IN FIGHTS

Calgary, July 4.—Arms for police men and the lash for certain types of offenders were among the proposals supported by speakers at yesterday afternoon's session of the annual convention of the Chief Constables' Association of Canada here.

That criminals were more and more addicted to the use of firearms in pursuit of their illegal calling was a point emphasized by Col. Cortlandt Starnes, commissioner of the Royal Canadian Mounted Police, in supporting the arming of police as a general policy. The commissioner also revealed that additional steps were being taken to ensure the safety of the 22 rifle, beloved of the youth of the land, from accidental discharge by insistence on certain standards.

At the evening session the question of arming policemen was raised again when consideration was given to drafting a strong resolution of protest against a motion introduced in the Senate of Canada at the last session. This motion, offered by Senator Lynch-Staunton, included a proposal that police forces be disarmed.

"A ridiculous proposal," Deputy Commissioner Cuddy of the Ontario police, described it.

The executive was left to draft a resolution.

WILL DISCUSS ROAD SAFETY AT MEETING IN SEPTEMBER

Members of Canadian Good Roads Association Will Hold Annual Convention at Charlottetown; Prevention of Accidents at Grade Crossings Will Occupy Important Place on Agenda.

Montreal, July 4.—Officials of the Canadian Good Roads Association have now entered most actively into the sphere of highway safety. The question of accident prevention at grade crossings is one of the most important topics of the agenda of their annual convention, which will take place at Charlottetown, P.E.I., on September 17, 18 and 19 next.

In order that the members may be informed on this subject, a great many facts are now being sent them for study, prior to the convention.

A rather unique contribution to the problem was made at the last inter-provincial conference, held in Ottawa by Mr. Justice McKeown, chairman of the Board of Railways Commissioners of Canada. He urged that pending the provision of some sort of protection at level crossings, there should be some thing which would really startle motorists out of their abstraction and force them to realize that the utmost caution was necessary at all grade crossings. He pointed out that there is a great uniformity of signals at such crossings. As a result, motor drivers get too familiar with them and grow careless.

SAFETY PROBLEMS

S. L. Squire, chairman of the executive of the association, takes the stand that "while it is important that highways are properly constructed, that care be taken in the selection of material used, and that after construction, maintenance be not neglected, the greatest problem remains, and that is, making them safe for travel. I am firmly of the belief," said Mr. Squire, "that the flagrant disregard of signals at level crossings should call for the immediate cancellation of the driver's license, over a period of some months. If our provincial authorities took a firm stand on this matter, and made examples of some cases of utter recklessness that we see on the highways to-day, I believe that we would get results. Personally I have seen drivers who simply race over level crossings at the same speed as on a straightaway piece of highway. I doubt very much whether such drivers even looked up and down the track to see if a train were approaching. It is such irresponsible drivers as these that cause the terrible toll that our level crossings take every year. The cancellation of licenses would doubtless have a most salutary effect. It is my personal opinion that the Canadian Good Road Association should make such a recommendation to all provincial governments."

Recent statistics gathered by the railways show such a degree of recklessness on the part of some drivers as can hardly be credited. Last year, for instance, no fewer than forty-four motor drivers drove right into the side of moving trains. Thirty-eight crashed into standing trains, and there was one poor fellow who drove between moving railway cars during switching. The report fails to state whether he was killed or not.

British Commons Is To Speed Up

London, July 4.—The Opposition whip was not slow to crack when Premier Ramsay MacDonald announced in the Commons yesterday afternoon that the Government proposed to take up all time usually allotted to private members' business until Christmas. This was necessary to enable the Government to get on with essential national business, the Prime Minister said, especially relating to unemployment.

Right Hon. Stanley Baldwin, Conservative leader, contended the period was unduly long and the private members' time should not be taken up any longer than the end of July.

But David Lloyd George, on behalf of the Liberals, also strongly pressed the same point.

Premier MacDonald consequently withdrew his motion without putting it forward in amended form.

NO NEW SCHEME FOR RESOURCES

Regina, July 4.—That no agreement between the Federal Government regarding natural resources either was discussed or entered into during his recent trip to Ottawa is a statement made by Premier J. G. Gardiner, who has returned from the east. This is his reply to a news report from Ottawa to the effect that a new agreement had been entered into with the Ottawa Government on the resources issue, involving the loss of millions of dollars to Saskatchewan.

Premier Gardiner's statement follows: "This article is typical of the misleading propaganda which has been carried on for some time. There was no proposal made to Saskatchewan by Ottawa touching our natural resources during my recent visit to the east."

NO CHANGE MADE
"Saskatchewan's claim was presented to the Ottawa Government before the recent elections. It has not been changed in any particular as a result of the proposed settlement with Manitoba. Ottawa has yielded to our representations in dealing with Manitoba in so far as subsidies in lieu of homestead lands is concerned. This represents a material change to both the other provinces from that which Alberta was prepared to accept a few years ago."

"There is no relationship whatever between any claim Saskatchewan has made and the \$4,584,000 claim allowed to Manitoba, but Saskatchewan has made other claims based upon alienation of her resources which any government in power in Saskatchewan in the future should present and urge before making a settlement."

CONGRATULATES MANITOBA

"No agreement between our Government and the Ottawa Government was either discussed or entered into relation to the natural resources during my recent visit to the capital, but I want to congratulate Manitoba upon the material advance made toward settlement of her natural resources question."

ROBBERY IN LOS ANGELES

Hollywood, Cal., July 4.—Boldly walking into the Van Den Asker Jewelry Company's store in the principal business section of Hollywood Boulevard, a robber yesterday held up three employees and escaped with jewels totaling a large sum.

GARDEN TYPES ARE DESCRIBED

Norman Rant, F.R.H.S., Speaks to Society on Rock Plant Culture

Norman Rant, F.R.H.S., was the speaker at a meeting of the Victoria Horticultural Society in the City Hall last night. Mr. Rant dealt with the arrangement and construction of rock gardens and illustrated his talk with a number of lantern slides.

Various differences between the valley and knoll types of gardens were described by the speaker, who explained the manner of building hollow double walls and single walls. In making rock gardens there was a general tendency to use too heavy and rich a type of soil. While this was all right for some rock plants which would grow in ordinary garden soil, it was not suitable for others which required a poorer and lighter composition.

Bedding in the rocks to provide the maximum amount of moisture for plants and the building of artificial moraines imitating mountain slides were also illustrated.

It was announced at the meeting that Premier Tolmie had consented to open the annual summer show of the society in the Empress Hotel grounds on July 19.

The gathering heartily endorsed a petition of the Victoria Real Estate Board seeking the prohibition of wild flower sale.

ROCKY POINT CLOSING HELD

Enjoyable Picnic at Holland's Beach Terminates School Year

Closing exercises of the Rocky Point School were held last week when rolls of honor were presented, the pass list announced and a picnic enjoyed by the pupils before the final breaking up. Rolls of honor were presented to Noel Parker for proficiency, to John Luky for regularity and punctuality,

and to Gwendolyn Thorne for deportment. Prizes were awarded to Catharine Thorne for spelling, to John Luky for clean teeth and to Violet Ball for proficiency in her work. Promotions were as follows: To Grade 7, Catharine Thorne; to Grade 5, Noel Parker and John Luky, on trial.

Under the direction of the teacher, Miss Kathleen Patricia Graham, the children's picnic was held at Holland's Beach, where an interesting sports programme was run off and a beach lunch enjoyed. At this event the children also took their first outdoor swim of the season. Winners of events at the picnic were: Violet Ball, Mildred Ball, Gwen Thorne and Phyllis Ball, who came first, second, third and fourth in the running race; John Luky who captured the sack race, and Gwendolyn and Catharine Thorne who won the three-legged race. Refreshments at the picnic were in charge of Mrs. M. J. Graham of Victoria.

THE FORD CAR STEEL SPOKE WHEELS

Close up view showing how Ford Specified Tire fits into drop center rim.

Greater Strength and Durability

THE Ford Steel Spoke (Drop Centre) wheel is an advanced step in engineering and the result of exhaustive experimental tests. It is smart in appearance, extra strong, having a lasting finish, easy to clean and provides a simple method for mounting and demounting the tire without tools and in a fraction of the time previously required.

The steel rods or spokes, 1/4" in diameter, are electrically welded to rim and hub shell. The finish is enamel baked on steel. Possessing great resiliency and being one solid piece, these wheels have a sturdiness not approached by any other type.

The Ford wheel eliminates loose, squeaking spokes and rims, pinched tubes, chipped or peeling finish, necessity of tire flap, misalignment of tires due to carelessly mounted rims, and a host of other wheel and tire ills formerly encountered. It permits of easy steering and no drumming sound is created by the wind.

There is an enormous amount of careful work necessary to build strength and service into the Ford Steel Spoke wheel, and the results justify the engineering study and skill devoted to this feature of the Ford car.

PROSPECTORS GO BY AEROPLANE

Stewart, B.C., July 4.—The Western Canadian Airways Limited of Vancouver has telegraphed that a seaplane will be here July 5 to transport men and supplies to the interior.

A local organization, is sending in four men and half a ton of supplies to Brightwell Lake near the headwaters of Teigen River, from which point the adjacent country will be prospected to rediscover high grade ore showings found over forty years ago by placer miners. The approximate location of these showings is known, and as some of the ore discovered showed native silver, it is assumed that worthwhile ore bodies will be located.

P. C. Green, P.L.S., of Victoria, is taking in seven men and a large

amount of supplies to Bowser Lake to survey the claims on Tim Williams's Creek, acquired by the Consolidated Mining and Smelting Company of Canada last fall. It is expected this work will take all summer.

C.N.R. EARNINGS

Montreal, July 4.—The gross earnings of the Canadian National Railway for the week ending June 21, 1929, were \$5,152,329, as compared with \$5,159,538 for the corresponding period of 1928, an increase of \$12,791.

ELEVEN DROWNED IN BULGARIA

Sofia, July 4.—Eleven persons were drowned yesterday when fording a stream near Wistow which had been swollen into a torrent by a cloudburst. The cloudburst also destroyed a large part of the crops in western Bulgaria.

Pacific Milk Itself

A thing that helps Pacific Milk is the richness and flavor of the milk itself. The packing process is a preserving process and that is important, but the factor which gives this good milk popularity is Fraser Valley and the care herds and milk there receive. Fraser Valley is particularly favorable to the production of rich milk.

Fort William, Ont., July 4.—Fred Symes, chief grain inspector at the head of the Great Lakes, told the Saskatchewan Grain Inquiry Commission here yesterday that there were men in the capacity of deputy inspectors employed by the Government at lake head terminals "who could not last five minutes on the job" if he could discharge them. These men, he said, had passed their examination for deputy inspectors, but lacked the necessary educational and executive requirements to fit them for responsible positions as deputy inspectors. Hence they were employed as samplers.

MEXICAN FREED AT NEW YORK

New York, July 4.—Salvatore Ateca, who had \$700,000 alleged to have been seized from the Mexican Federal Government, in his possession when he was arrested here two months ago, was freed yesterday from the custody of the United States at the conclusion of extradition proceedings brought by the Mexican Government.

Ateca, former Mexican rebel paymaster, and three other men were arrested last May in the Hotel McAlpin, where authorities seized a black bag containing the cash and securities. At that time the Mexican Government authorities said the men were absconding to Spain.

Ateca's release was ordered by United States Commissioner O'Neil after David Seigel, counsel for the Mexican, had attacked the complaint of larceny and embezzlement laid by counsel for the Mexican Government. Seigel said the complaint showed no larceny as the 30,000 pesos alleged to have been stolen from the state tax collector's office at Juarez had been legally taken, as Benjamin Revilla, an agent for Ateca, had given receipts for the money. He also said the payment had been authorized by Augustin Gallo, mayor of Juarez, acting under the orders of the rebel general of the district.

SOUTH WALES COAL COMPANIES ARE TO MERGE

Cardiff, Wales, July 4.—Negotiations were said today to be near completion for a merger of South Wales coal companies on an unprecedentedly large scale, involving a capital of approximately \$150,000,000.

The firm of Guest, Keen and Nettiefield are the promoters of the scheme and have been bidding for the absorption of the Cambrian Combine, of which the late Lord Rhondda was head. The Powell Duffry Steam Coal Company and other big concerns also will be included.

New Construction Record For Canada Is Set In June

Toronto, July 3.—June construction contracts awarded in Canada reached a new high for any month in history, according to Maclean Building Reports Ltd. The total value, \$72,419,800, exceeds that for June, 1928, by twenty per cent. The total for the half year is \$278,121,700, or 8.5 per cent greater than the first six months of 1928.

The June awards by classification are as follows: Business buildings, \$26,065,400, or thirty-six per cent; engineering, \$21,233,600, or 29.3 per cent; residential, \$17,848,300, or 24.5 per cent; industrial, \$7,272,500, or 10.1 per cent. By geographical divisions the total is subdivided as follows: Ontario, \$38,366,600, or 52.8 per cent; prairie provinces, \$20,384,400, or 28.1 per cent; Quebec, \$16,081,300, or 22.2 per cent; British Columbia, \$5,818,900, or 8 per cent; Maritime Provinces, \$1,814,600, or 2.5 per cent.

Business buildings predominate in Canadian construction started during the first six months, the estimated value of such contracts being \$94,235,300, which is 33.9 per cent of all construction. Engineering works show \$76,633,500, or 27.5 per cent; residential, \$69,513,300, or 25 per cent; and industrial, \$37,719,600, or 13.6 per cent. The apportionment by divisions is as follows: Ontario, \$109,331,000, or 39.3 per cent; Quebec, \$68,096,100, or 24.7 per cent; prairie provinces, \$66,236,600, or 23.8 per cent; British Columbia, \$28,029,200, or 10.1 per cent; Maritime Provinces, \$5,828,800, or 2.1 per cent.

Story King To Visit South Africa Untrue

London, July 4 (Canadian Press Cable).—The Canadian Press is authoritatively informed that the story circulated yesterday to the effect that King George intended spending a portion of next winter in one of the Dominions had no foundation. The report was widely circulated and related the possibility of the King journeying to South Africa. The prince was expected that such a visit would be of great benefit to His Majesty after his serious illness of last winter and his convalescence since this spring and summer.

Maj.-Gen. MacBrien's Plane Dug Up Rum

Sydney, N.S., July 4.—To plough up twenty barrels of rum with the tail skid of his plane was the unique experience of Major-General J. H. MacBrien, when engine trouble drove him into a forced landing on a farm near here yesterday afternoon. The cache was neatly hidden under sticks covered with sod, and had the plane dropped a wheel into the pit instead of merely straddling it, the result might have been serious for the pilot and his guest, Dr. Freeman O'Neill.

Several holes punched in the wing fabric were strongly repaired with adhesive tape secured from a city hospital, thus enabling the machine to return to the hangar.

GRAIN EVIDENCE
Fort William, Ont., July 4.—Fred Symes, chief grain inspector at the head of the Great Lakes, told the Saskatchewan Grain Inquiry Commission here yesterday that there were men in the capacity of deputy inspectors employed by the Government at lake head terminals "who could not last five minutes on the job" if he could discharge them. These men, he said, had passed their examination for deputy inspectors, but lacked the necessary educational and executive requirements to fit them for responsible positions as deputy inspectors. Hence they were employed as samplers.

VANCOUVER ISLAND NEWS

Chemainus

Dominion Day was observed in Chemainus with a splendid programme arranged by the celebration committee and ably carried out in all details.

At 9 a.m. a grand parade left the public school grounds, headed by the Nanaimo Silver Cornet Band. The route taken was from Cedar to Oak Street, along the Island Highway to the E. & N. station and down Store Street to the War Memorial, where the judging took place. The judges were Mrs. Cave and Messrs. Casswell and Humberd.

The Rose Queen and her maidens were on a float decorated with red, white and blue. The Queen, Betty Aiken, was dressed in white with bouffant skirt frills edged with silver, her crown being encircled by a wreath of pink rose buds. Virginia Humberd was in pale green, with large ribbon hair bow to match her dress; Louise Mainwaring was dressed in mauve with hair bow of same shade, Rosie Cruick's dress was pink and pink hair bow, and Agnes Davidson's dress was blue with blue hair bow. The effect was most charming.

Winners were: Special prize for decorated Chevrolet car, Willie Wyllie. Decorated car, first, Mrs. Pritchard; second, Roy Gill. Decorated Ford car, Gilbert Clarke. Bicycle, first, Elmer Albee; second, Eric Knight. Scooter, Hermoine Spurling. Tricycle, Jack Eberts. Decorated wagon, Ernie Cathart. Decorated baby buggy or doll buggy, first, Irene Underwood; second, Violet Wyllie. National character, Joy Lang as Indian. Comic group of three, Billy Allister, Kenneth McGladney and Walter Laidlaw. Novelty group, Jerry and Jimmy Humberd as bride and groom.

At the conclusion of the judging all moved on to the recreation grounds, where the children's events took place till 12 o'clock.

In the afternoon, from 1 to 3 o'clock, the adult races and events took place. From 3 to 6 o'clock a well-matched baseball league game ended in victory for Chemainus over Duncan by eleven to ten. The aquatic sports were held in the evening.

FIELD SPORTS

Girls, 6 and under; 30 yards—1, Margaret Eberts; 2, Mabel Knight. Boys, 6 and under; 30 yards—1, Teddy Jansch; 2, F. Vincent. Girls, 6 and under; 30 yards—1, Leona Cruick; 2, Doris Cook.

Boys, 10 and under; 50 yards—1, John Evans; 2, Tom McLaughlin. Girls, 10 and under; 50 yards—1, Virginia Humberd; 2, Joan Vincent.

Boys, 12 and under; 75 yards—1, Searley Shillits; 2, Bobby Hallberg. Girls, 12 and under; 75 yards—1, Katharine Collyer; 2, Violet Laidlaw.

Boys, 14 and under; 75 yards—1, John Thompson; 2, Edward Hayes. Girls, 14 and under; 75 yards—1, Katharine Collyer; 2, Elsie Behman.

Boys, 3-legged race, 10 and under; 50 yards—1, August Ancil and Basil Halhed; 2, Leslie Knight and Charlie Porter.

Girls' 3-legged race, 50 yards—1, Joy Lang and Virginia Humberd; 2, Joan Vincent and May Robinson.

Boys' 3-legged race, 15 and under; 50 yards—1, Edward Hayes and John Thompson; 2, Duncan McLaughlin and Andrew Laidlaw.

Girls' 3-legged race, 15 and under; 50 yards—1, Katharine Collyer and Peggy Toynebe; 2, Violet Laidlaw and Elsie Behman.

Boys' high jump, 15 and under—1, Richmond Ross; 2, Dick Halhed. Girls' high jump, 15 and under—1, Katharine Collyer; 2, Peggy Toynebe and Elsie Behman.

Potato race, open—1, Edward Hayes; 2, Violet Laidlaw. Boys' wheelbarrow race, 25 yards—1, Edward Hayes and John Thompson; 2, Andrew Laidlaw and Duncan McLaughlin.

Boys' relay race—1, John Thompson and Dick Halhed; 2, Katharine Collyer. Boys' race, 8 and under—1, George Pedersen; 2, Harold Knight.

Boys' over 14, 220 yards—1, Frank Spurling; 2, Duncan McLaughlin. Men's 100 yards—1, Fouracre; 2, H. Wilson.

Single ladies' 100 yards—1, F. Huckeran; 2, Coralie Fraser. Married ladies' 100 yards—1, Mrs. Waldon; 2, Mrs. Scott.

Men's high jump—1, Arthur Dwyer; 2, David Reed. Ladies' high jump—1, Coralie Fraser; 2, Enid Fraser.

Bandmen's race—1, M. Muller; 2, Roworth. One-half mile open—1, Gordon McInnes; 2, H. Cathey.

Ladies' relay—1, Coralie Fraser, Enid Fraser and Mrs. Waldon. Old men's race, 100 yards—1, Henry Knight; 2, Wm. Eastridge.

220 yards open—1, H. E. Wilson; 2, H. Cathey. 440 yards open—1, Fouracre; 2, H. Cathey.

Putting the shot—Eunuch Hirla. Men's tug of war, 8 a side—Chemainus team.

WATER SPORTS

Men, 100 yards—1, Johnny Cameron; 2, A. Cowling. Ladies' 100 yards—1, Coralie Morrison; 2, Carrie Grey.

Boys, 12 and under; 50 yards—1, Tommy Allister; 2, H. Campbell. Girls, 12 and under; 50 yards—1, Joy Lang; 2, Peggy Toynebe.

Boys, 15 and under; 75 yards—1, Danille Wyllie; 2, Tommy Allister. Girls, 15 and under; 75 yards—1, Lilly Wyllie; 2, Dorothy Fraser.

Boys, 9 and under; 25 yards—1, George McLadrey; 2, L. Grey. Quarter mile open—1, Cameron; 2, Cowling.

Candle race—1, Harry Campbell; 2, Peggy Toynebe. Horse racing, 50 yards, under 16—1, Tommy Allister; 2, Carrie Grey.

Balloon race, 50 yards; under 16—1, W. Weaving; 2, Alex Thompson. Plunge in distance—Thompson.

Relay race, 3 men—Cameron, Stevens and Wyllie.

An exhibition of boxing at the recreation hall was followed by a dance at which there was a large crowd.

The Collegiate orchestra from Nanaimo was engaged for the occasion and dancing continued until 2 a.m.

The celebration committee had given the guides the concession to sell soft drinks, ice cream, chocolate bars, hot dogs and operate side shows. The ice cream, soft drinks, chocolate, etc., as well as balloons were in charge of Mrs. Ross and Mrs. Waldon, aided by guides.

Ball throwing, wheel of fortune and horse racing drew a large number of patrons. The proceeds of the day amounted to about \$240 and at least \$100 was cleared.

The guides and guides expressed themselves grateful to the celebration committee for their help and support.

WHAT THE BANKERS SAY

FOR MORE THAN FOUR YEARS THE financial leaders of Canada have been well satisfied with the economic condition of this country. Annual presidential addresses, monthly summaries of business, and public statements from time to time have been framed in the most optimistic terms. We now have before us the current monthly letters of both the Bank of Montreal and the Royal Bank of Canada, which are very encouraging. The Bank of Montreal statement says:

In the half-year drawing to a close, Canadian commerce, in nearly every branch, has reached a higher peak. Foreign trade, railway traffic, manufactures, mining, building operations and agriculture in the large have been of greater volume and value than ever before. Employment has never been more brisk, nor business sheets better. Diffused prosperity, the rising tide of which set in five years ago, continues. A relatively large programme of railway construction has been entered upon, development of water-power and mineral resources is unabated, new manufacturing industries are being planted in the Prairie Provinces, and a distinct improvement in business has been brought about in the Maritime provinces. Large expenditures of public money on highways have given employment to labor and impetus to business, bringing in their train a great influx of tourists whose disbursements are estimated to reach \$300,000,000 this year, and so aid in redressing Canada's adverse trade balance with the United States.

What is apparent to the officers of the Bank of Montreal is apparent to the officers of the Royal Bank of Canada. To show the unanimity of view in this regard, we have taken the following from the first paragraph of the latter's letter:

From all parts of Canada there are satisfactory reports concerning the level of business activity, although there are a few lines, such as automobiles, where the midsummer recession is beginning to be felt. Building contracts for the first five months of the year exceeded the high records made in 1928; iron and steel production is at a maximum, and flour mills are turning out a larger volume than in recent years. The mining statistics for the first quarter of the year show a substantial gain over the record attained in 1928, and forecasts for total production for the year are optimistic. Although the recent fall in the price of wheat has made dealers in semi-luxury products somewhat cautious, the actual volume of distribution in the early part of the year has been exceptionally satisfactory.

It is not necessary to remark that these opinions of Canadian commercial and industrial conditions are issued for no other purpose save that of informing the general public of the facts as observed by experts. They have no political motive. Yet we are continually being told by certain public men and newspapers that our prosperity is either nil, seeming prosperity or very nearly a sham. We are satisfied with the estimate of the two banks from whose monthly summaries we have quoted.

WINNIPEG AND THE FLAG

SOME OF THE CITIZENS OF WINNIPEG have asked the mayor of that city to explain why the Canadian Merchant Marine flag was flown from the City Hall flagstaff on Dominion Day instead of the Union Jack. Mayor McLean—who commanded a battalion of his own raising in the war—has replied that Canada's marine flag is very frequently used on festive occasions, "and it seemed fitting to use the flag on Canada's special holiday."

Winnipeg's mayor could not have given a much better answer. He hoisted the emblem which is nearest to something distinctly Canadian. But the marine flag is not near enough. It is beside the point to consider the relative propriety, in the absence of our own, of flying the Union Jack and that which fluttered in the breeze on Winnipeg's City Hall on Monday. The fact this incident once again emphasizes is that the only Dominion in the British Empire which is not in a position to fly its own flag is the Dominion of Canada.

When they consider the flag question Canadians should remember, as The Toronto Star reminds us, that there already are sixty-four varieties of the British flag, each one of them expressing the main idea, and in addition to that, conveying a special significance. There are the British flags of Australia, of New Zealand, of South Africa, of this or that or the other crown colonies, and some of them quite insignificant colonies at that. But Canada must continue to borrow the special emblem of Great Britain or fly the flag of her Merchant Marine. What an anomalous situation this presents is referred to by our Toronto contemporary in the following terms:

Not only have the other Dominions and several of the colonies flags representative of them, but England, Ireland, Scotland and Wales have standards of their own apart from the Union Jack. The lord-lieutenant of an English county is not an individual, nor a vast overseas Dominion, and yet he has a flag of his own—the Union Jack with a crown and a sword on it. A functionary of the British customs service has a special British flag of his own—a blue ensign with a crown on the field. There is a similar one for diplomatic functionaries. Admiralty vessels, board of trade vessels, post office vessels, harbor masters, lighthouses, the Navy Department, the War Department, Lloyds, the Pacific Cable Board—so to the number of sixty-four there are these flags, many of them the blue ensign with special emblems on the blue field significant of some special meaning.

Those who object to a Canadian flag, moreover, should remember that the red and blue ensign, each with the Canadian coat of arms, have been authorized by royal proclamation for use on sea and land respectively. But they are not sufficiently distinctive. What is required is another variation of the sixty-four designs by which the British flag is known on land and sea. What could be simpler, or more effectively Canadian, than a combination of the Union Jack and the Maple Leaf?

THE CASE OF PREMIER GARDINER

WHAT PREMIER GARDINER DOES is his own business; but now that he knows definitely there will be thirty-five votes against him in a Legislature composed of sixty-three members, it would appear to us that the more popular course for him to take would be to resign and not wait to meet the new House two months hence.

It should be understood, however, that Mr. Gardiner is within his constitutional rights by deciding to take the count in the Legislature. He controls the largest following by a margin of one, and on the assumption that no vote can be guaranteed until all the noses have been counted, he has the right to assume that he is in a position to attract sufficient support to sustain him. In this case it would perhaps be far-fetched; but that does not alter the principle which obviously is guiding him.

There was in the popular verdict, of course, a fairly clear indication that the people of Saskatchewan had made up their minds to get rid of the Gardiner Government. This is not to say that all the deficiencies with which it was charged could be proved. But by hanging on to office in the face of the circumstances exposes the Premier and his colleagues to suspicion.

A WORD ABOUT YOUTH

YOU DO NOT HEAR SO MUCH NOWADAYS about "flaming youth" and its sins as you did a short time ago. In case you are still a bit worried about the erring younger generation, however, you might observe these remarks from the Rev. Charles R. Brown, D.D., dean emeritus of the Yale Divinity School, who has seen the new generation at close range for a number of years.

"I have no sympathy whatever with this wholesale decrying of the tendencies of youth," says Dean Brown. "The young people are not everything that is great and grand and good, neither are they the last word in total depravity. They are mixed like the rest of us. The wheat and tares grow together in that soil which is warm and rich and fertile beyond measure, according to the seed sown!"

That seems to us an excellent size-up of the situation. It is a good antidote to the dolorous wails of some of the discouraged greybeards.

NOTHING TO BE PROUD OF

CANADIANS HAVE EVERY REASON to be proud of the country's trade figures; but there will be no thrill of satisfaction over an item of business which the Department of National Revenue made public to-day. It tells us that in the month of June the total value of the liquor which the Dominion exported to the United States was \$1,213,756. It is true, when compared with the value of shipments for May, a decrease is shown. It is, none the less, altogether too much.

As has been pointed out, there is no law to prevent this shipment of liquor from Canada to other countries. But we are not playing fair with ourselves. A special committee of the House of Commons recommended that clearance of all vessels with cargoes of "wet goods" obviously destined to the United States should be refused. The Royal Commission which investigated customs conditions endorsed this recommendation. Parliament has had the opportunity to implement it with legislation. It has not taken it. Our hands will not be clean as long as the Department of National Revenue is able to tell us each month that we have sold a million or so dollars' worth of liquor to our neighbor.

WHAT OTHER PAPERS SAY

There is no such thing as personal liberty in a republic.—U.S. Senator Jones.

A friend is one who walks in with the rest of the world walks out.—Kitchener-Record.

The world is full of willing people; some willing to work and the rest willing to let them.—Kitchener-Record.

The public which criticizes court ruling should pause and consider that jurors were recruited from its ranks and that it elects the governments which appoint the judges.—Hamilton Spectator.

Last year nine million motor tourists from the United States entered Ontario and it is estimated that this year they will number twelve million. It could be wished, however, that they would not all get on the Toronto-Hamilton highway at one time.—Toronto Star.

THE CITIZEN'S RESPONSIBILITY

Plainly, it is the duty of the Government to keep prohibition enforcement men within bonds and to stop the outrages some of them perpetrate. Equally it is the duty of citizens, and particularly of those in the city geographically situated as Detroit is situated, to assist the Government by themselves obeying the law, instead of hindering and thwarting it, by supporting and patronizing enemies of law and order. The blood of innocent victims cries out from the ground against both those who make reckless and criminal use of Government pistols, and those who create the occasion for the war against rum runners and bootleggers, by patronizing them.

NAVAL DISARMAMENT

The fact that the most difficult of all international questions has been settled will make it easier to settle other international questions. The atmosphere is right, therefore, for such a frontal attack on the Anglo-American naval problem as Premier MacDonald has in mind. The immediate cordial response from Washington in every responsible quarter to the suggestion that he visit this country during the summer shows that the will to settle the question has been aroused. Men are ready to believe to-day what they would not have been ready to believe had Mr. Young failed in Paris—that a problem is soluble even if it is complicated. They are ready to consult their hopes rather than apprehensions. They are not prepared to believe that they will fall when in the face of greater difficulties their countrymen have just succeeded so brilliantly.

A THOUGHT

The sleep of a laboring man is sweet, whether he eat little or much; but the abundance of the rich will not suffer him to sleep.—Eccl. v. 12.
Sleep is no servant of the will; it has caprices of its own.—Bowring.

Loose Ends

America tries to find out who discovered it—and finds keen competition for the honor—from Celts, Scandinavians and Latins—thus forgetting the Neolithic man—while Mrs. De Priest discovers the White House—and Rio is annoyed.
By H. B. W.

THE UNITED STATES House of Representatives paused in the midst of less important matters the other day to decide who discovered America. It did not succeed. Before the candidates for the honor of discovery, the House decided to postpone the matter until the next session. The House then turned to the matter of the discovery of America. It did not succeed. Before the candidates for the honor of discovery, the House decided to postpone the matter until the next session. The House then turned to the matter of the discovery of America. It did not succeed. Before the candidates for the honor of discovery, the House decided to postpone the matter until the next session.

THAT IS WHAT YOU WOULD expect from the House of Representatives or any other able legislative body. There are large problems are too large for them. America, of course, was discovered long before Columbus, hundreds of years ahead of Ericson, even in advance of St. Brendan and his Irish heroes, and it has been discovered countless times since. Mr. Wells tells us in his "Outline of History" that America was discovered originally between 10,000 and 5,000 years before Christ by our remote ancestors of the Neolithic age, when they were still using stone tools. They came from Asia, these ancestors of the North American and South American natives, and beside them St. Brendan and the rest are hopelessly modern.

SINCE THEIR TIME scarcely a week has passed without someone discovering America afresh, spending a month there and writing a book about it. The newspapers and magazines of all foreign nations are filled with the accounts of people who have just discovered America, and the strange thing is that none of them ever appears to find out any more about it than the original Neolithic discoverers from Asia. American writers are equally lost. America, so far as its life, its civilization and its future are concerned, remains the world's great undiscovered country from whose bourne two travelers return with two similar accounts.

IN THEIR QUEST for the real America, writers, American and foreign, will find rich material in the case of Mrs. De Priest, who represents perhaps the most baffling problem faced by any leading nation in the world. You have read, no doubt, how Mrs. Hoover gave a tea party to the wives of all members of Congress and how Mrs. De Priest, wife of the only negro congressman, was included among the guests. Mrs. De Priest was delighted, friends of the negro were elated.

ALL THIS seemed a simple enough matter to other nations. The first lady of the United States had invited the wives of congressmen and Mrs. De Priest was one of them. But in a nation with millions of negroes scattered all over it and increasing amazingly, it is a serious indeed. Southern states oppose the admission of the American farmer to deplore this "recognition of social equality." In Texas, which voted Hoover last year, the state legislature adopted a resolution stating that "we bow our heads in shame and regret and express in the strongest and most emphatic terms our condemnation and humiliation of said conduct on the part of the mistress of the White House," and a woman senator, Miss Margie Neale, said Mrs. Hoover had "violated the most sacred social custom of the White House." Florida passed a similar resolution, members of the state senate declaring that in voting for Mrs. Hoover, Florida had been "betrayed." All through the states where negroes live in large numbers everything that Mr. Hoover has done or left undone has been dwarfed into insignificance by Mrs. Hoover's tea party, the most notable in American history since that held in Boston harbor in 1773.

IN Galveston, too, the other day, the far-famed International Beauty Contest was held and a demure, dark-haired Austrian girl, Lili Goldarbeiter, was chosen as the outstanding beauty exhibited. Galveston, Texas, does things in a big way. It did not declare Miss Goldarbeiter the most beautiful girl on exhibition, nor the most beautiful girl in the world. It soared past the narrow confines of the solar system and declared her the most superb creature in the whole universe, which is quite a large territory, so large that the news will take some millions of light years to reach the jealous beauties of more distant stars.

THAT, HOWEVER, is unimportant. The important thing is that the Galveston Beauty Contest was said to inspire the nations of the world to join together in friendly worship of beauty. But as usual in all such fine projects a woman spoiled it. Instead of inspiring the nations to new unity at the shrine of pulchritude, the Galveston contest has introduced bitterness and rivalry which may make the League of Nations tremble. Brazil, for

KIRK'S WELLINGTON COAL

"Does Last Longer"

instance, is convinced that its candidate, Miss Olga Bergamini De Sa, was deliberately double-crossed by the judges, for she did not find a place even among the consolation prize winners. "Pure deception," screamed the headlines of the Rio newspapers when the awful news of Miss Austria's victory reached the city. Brazil will never, never again enter the contest, the newspapers said. Italy also has refrained from it, officially because it thinks such contests are vulgar but, it is suspected, because Italy never wins them. Since the day when Paris awarded the golden apple to Aphrodite, beauty contests have always been dangerous. And nations have fought over beautiful women ever since that same enterprising youth eloped with Helen. The League of Nations might well outlaw these interesting exhibitions of anatomy as the greatest menace to world peace.

The Weather

Daily Bulletin Furnished by the Victoria Meteorological Department

Victoria, July 4—5 a.m.—The barometer remains high over this Province and rain is reported on the Coast. Showers have occurred in parts of Saskatchewan and Manitoba.

"ON THE DETROIT RIVER"

To the Editor:—I wish to extend to you my hearty appreciation of your

TWENTY-FIVE YEARS AGO TO-DAY

The Victoria Daily Times, July 4, 1904

(Associated Press) London, July 3.—It is reported that over 700 emigrants, bound from Copenhagen for New York on the Scandinavian-American line steamer Norge, have been drowned.

The yacht races preliminary to the international competition, which takes place to-day, were sailed on Saturday afternoon. Unfortunately, during the first part of the races the conditions were anything but what would be desired.

Vancouver, B.C., July 4.—One of the most daring highway robberies in the history of Vancouver was committed Saturday evening on the Hastings Road, when W. H. Quinn and five friends were held up about half a mile beyond the Columbia Brewery and relieved of a sum of money varying between \$7,500 and \$8,000.

Advices from Moose Jaw, Regina, and other points in the northwest have been received by F. R. Stewart & Co., relative to the shipments of strawberries sent forward by them. The berries from Vancouver Island are pronounced to have been the best received during the year, and a reputation has been established which will ensure a good market next season if the proper fruit is sent forward.

Weather Forecast—Victoria and Vicinity—Southerly winds, generally fair and warm.

The management of the B.C. Marine Railway has taken over the Albion Iron Works for two months in order to run off some very heavy castings for the Western Fuel Company, Nanaimo. The work is of such a character that had not the Albion been temporarily called into use it might have been sent out of the Province.

LINEN TOGS

Very Parisian is a new golf outfit in raspberry red linen, with circular skirt and matching shorts, sleeveless white linen tuck-in blouse and linen cardigan stitched in white for a four inch banding.

Nothing is nicer with salads than thin toast. Made hot right out on the porch where you are serving supper, it is twice as acceptable.

One mother says: My rather wilful son is very fond of music. For that

Garden Fete Held At Home Of Regent

The Sir Matthew Baillie Begbie Chapter, I.O.E.E. held a pleasant and successful garden party recently at the home of their regent, Mrs. E. E. Wootton, Victoria Avenue. The programme of fancy dancing on the lawn and music was as follows: Old-fashioned garden dance, Daphne Nunns, Mary Penicost, Gwynedd Thomas; temple nautch, Dulcie Hamlet; flower fairy, Irene Addison; piano solo, Mrs. Llewellyn Thomas; song, Mrs. Butterfield, gypsy beggar, Laisle Bird; acrobatic dance, Gwynedd Thomas; piano solo, Miss Ireland; Blue Danube, Dulcie Hamlet; song, Mr. Towne; violin obligato, Miss G. Shrapnel.

The dances were done by pupils of Miss Dulcie Hamlet and were greatly enjoyed. The accompanists for the afternoon were Mrs. Thomas and Major Waits.

The tea arrangements were in the hands of Mrs. Hewett, Mrs. Birkeland, Mrs. Cartwright and Mrs. Flack; candy, in care of Miss Ireland; ice cream and flowers, Mrs. Myers; fortune telling, Mrs. Brothers. During the afternoon a beautiful painting, donated by Mrs. Flack, was raffled and won by Mrs. Garesche.

An army, said Napoleon, marches on its stomach, but a hotel prospers as much as anything on its food. These are the men at the Royal York Hotel who are responsible for the good cheer at that famous hostelry which was opened last week by the Governor-General with a distinguished company of prominent Canadians including the president and directors of the Canadian Pacific Railway, the premier of Ontario and many others. These chefs command an army of 175 culinary experts and indirectly another army of 300 waiters. They are from left to right: E. Arange, party chef; R. Albertella, assistant chef; J. Cherrier, head chef; J. Aublard, assistant chef; W. Thonfield, banquet chef; and P. Raaberg, grill chef.

BIG EXPLOSION KILLS MAN IN SAN FRANCISCO

San Francisco, July 4.—One man was killed and six persons were injured in a gas explosion that blew out the front of a six-story building here yesterday. Police reports said Peter Johanson, occupant of one of the flats, was killed when he struck a match to light a cigarette. Gas was said to have been leaking from a meter for several days.

Traffic in neighboring streets was paralyzed. Windows as far as three blocks away were shattered. Johanson was blown out of a second story room, the body being picked up from the street before the building. Six other persons received injuries, ranging from lacerations to severe burns and bruises.

YOUTHFUL CAPE

The cape collar for evening is one of youth's favorites. A pale pink chiffon dance frock with irregular skirt-line features a rear cape collar that reaches below the hipline. It gives a most feminine look to the flapper

YOUR BABY AND MINE

by MYRTLE MEYER ELDRED

Mrs. Eldred will be glad to answer all questions pertaining to babies and children. A stamped and self-addressed envelope forwarded to this office will bring a personal reply.

USE OF LEMON JUICE IN FORMULA SAME AS LACTIC ACID

Mrs. C. L. H. writes:—"Have you ever heard of giving a baby strained lemon juice and molasses syrup? Why would this be good in the diet?"

"Is it dangerous for a baby when on her back to raise up on her head and toes?"

"Do you consider it a good thing to use glycerine suppositories daily at the same time until a baby is trained to have a regular movement?"

"Is there any danger of a baby's smothering when placed on her tummy to sleep?"

"I am training my nine and one-half months old daughter to drink out

Joe Wright Defeats His Pal In Gruelling Race

Guest Collapses Ten Yards From Finishing Line

Is Forced to Stop Sculling Through Utter Exhaustion and Wright Flashes to Victory by Half a Length; Wright Has to Be Lifted From His Shell After Bitter Struggle in Quarter-finals of Diamond Sculls at Henley; Toronto Argos Defeated by London Rowing Club.

Henley-on-Thames, Eng., July 4—Physical collapse to-day cost Jack Guest his chance of advancing to the semi-finals Diamond Sculls and avenging a defeat by Joe Wright Jr., fellow oarsman of the Toronto Argo Club last year.

Within ten yards of the post Guest stopped sculling in the quarter-final to-day, his strength sapped by the terrific efforts he had put forward to keep in front. Wright's time was 8 minutes 50 seconds.

Guest at one time had a lead of a length and a quarter gained by grueling work from the start. He had some lead still when near the end Wright pressed hard. But when he collapsed ten yards from the finish, Wright raced past to cross the line half a length in front. Wright had to be lifted from his shell, though Guest managed to paddle back.

Besides Wright, semi-finalists to-morrow will be: Gunther, Holland; Viscount Tiverton and F. Bradley.

FORMER WINNER BEATEN

Gunther to-day eliminated R. T. Lee, diamond sculls winner in 1927 and finalist with Wright last year. Viscount Tiverton won by default from H. R. A. Edwards, who chose to row with the London Rowing Club in their match with Toronto Argos to decide a dead heat.

The fourth semi-finalist, F. Bradley of the Pembroke College, Cambridge University, eliminated T. D. Collett of Leander to-day, winning by three lengths in 9 minutes 7 seconds. Collett had given Wright an epic battle two years ago.

Before the race, Wright said: "I am feeling fine. This weather suits me, though for comfort I like it dry."

It had rained all morning and the Henley was desolate. The strong headwinds slowed up all competitors and accounted for the comparatively slow times in races that were keenly rowed, in contrast to the one-sided victories of the opening day.

The Wright-Guest duel was the feature of the day. Though Guest had been training here for five months in the hope of defeating Wright, who had similarly eliminated him last year, the powerful stroking of the Diamond Sculls holder was too much for him.

TORONTO ARGOS LOSE

London Rowing Club eliminated Toronto Argos in the preliminaries of the Grand Challenge Cup to-day after rowing a dead heat earlier. The English eight won by a quarter length in the last time of 7 minutes and 8 seconds. The first race was a hard struggle all the way with a strong wind blowing dead against the crews.

London had nearly a length lead at the half-way mark, but the Argos spurred and reduced the margin to a quarter length. Then in the last fifty yards they struck a thirty-six gait stroke and won on even terms with the London club and both finished strongly.

The Columbia University 150-pound crew advanced another step in its quest for the famous Thames Challenge Cup, eliminating Kingston in the twelfth heat by one length. The time was 7 minutes 31 seconds.

The Brown and Nichols School crew from Boston won its heat in the

Bobby Jones On Golf

Pros Appearance of Ease Result of Well-timed Hitting

Bobby Jones, who recently won the United States open golf championship, has been a regular contributor to The Times for some time. Jones is now the holder of the two major United States titles, the open and the amateur. He will defend his amateur crown in September. Jones is considered one of the greatest authorities on golf to-day, and on the links is always the man to beat, whether it be in amateur or pro tournaments. Jones has been in more finals in major tournaments in the last few years than any other golfer, and he has won more titles. This all means that Jones knows his golf and is therefore in a position to write authoritatively on the game. His articles in The Times are widely read.

One essential element of the golf stroke, regardless of what path it may take is a smooth even acceleration from the top of the swing to and through the ball. Anything which disturbs this smoothness and introduces a jerk into the swing is bound to upset the timing or destroy the accuracy of the blow.

This is one of the chief dangers in a fast backswing. Rarely do we see a man who is habitually a fast swinger who is a consistent player. On occasions he may be able to swing back quite fast yet set himself solidly before delivering the punch, but the perfection of balance necessary is something which he has no chance to achieve with any degree of regularity, quickly or usually means quickly down when the power of the stroke is expended before the ball is reached.

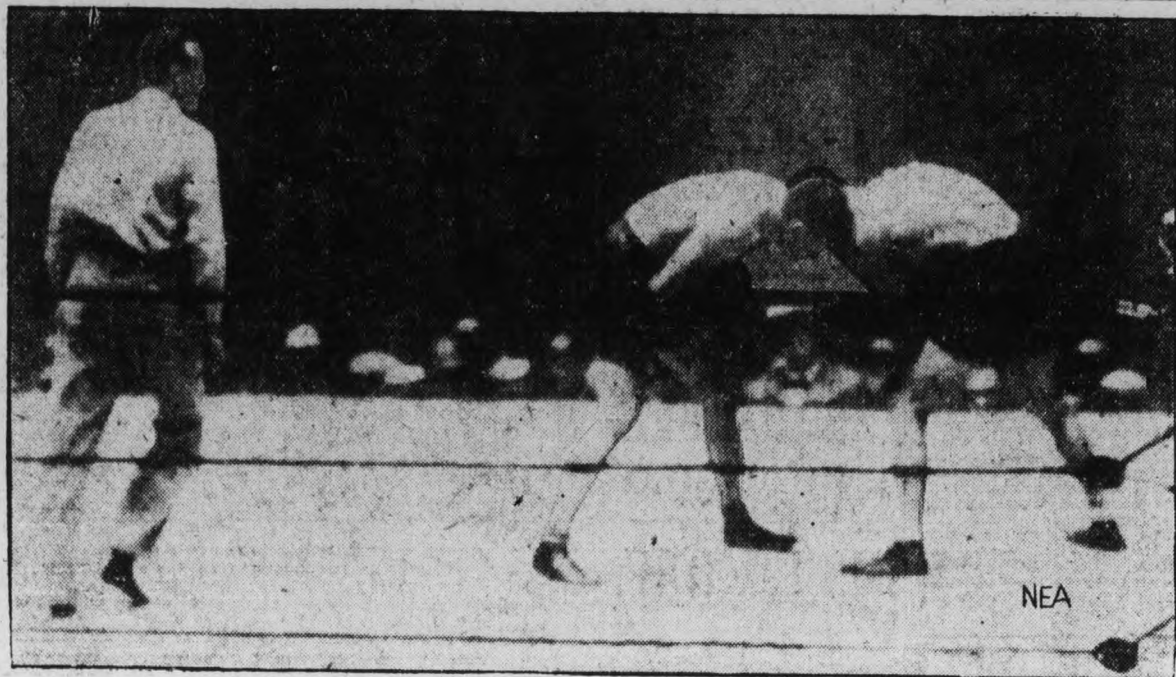

I suppose there is no more common fault among all kinds and classes of golfers than hitting too quickly. Especially when trying for length it is hard to resist the impulse to snatch the club down from the top of the swing with all the force which the

SHOULD BE SPEEDED UP GRADUALLY

It is this picture of gradual acceleration which eludes the average player. Once reaching the top of his swing he can see but one thing to be done—to hit as hard and as quickly as he can. He marvels at the apparent ease with which expert players drive great distances, without seeing the application of that phenomenon to his own game. He knows, of course, that his eye is being fooled—that a golf ball has to be struck with considerable power in order to travel three hundred yards—that the stroke which sends it that far is not as gentle as it appears. But he does not always realize that the appearance of ease is simply the result of leisurely and well-timed hitting. When the stroke does not go off half-cocked, an when the club has had time to gather speed before the final charge is set off, there is an entire absence of any appearance of intense effort.

Ease, style, form, timing—all these terms applied to golf mean the same thing—economy of effort. They come to mind when we see the force applied where it will do the most good—behind the ball instead of wasted upon the air. The slow back swing and a slow leisurely start downward are two very useful things to think about when you are striving to acquire any of these virtues.

As German Dempsey Won From Paolino

Rushing at one another with heads lowered, after the style of goats, Max Schmeling and Paolino Uzcudun are shown above during a moment of action in the third round of their fifteen-round tussle at Yankee Stadium, won by Schmeling. At the left is Referee Donovan, with Schmeling at extreme right.

player can exert. It is not often remembered that it is the well-timed stroke and not the vicious one which makes the ball travel farthest.

NERVOUS GOLFER CAN BE DEFEATED

There is no particular relation between the backward and forward strokes. The backswing is merely a means of getting in position to hit. But it is a fact that if the backswing is hurried the downstroke will likely be hurried also, for the nature of each is determined to a great extent by the mental state of the player. If he is anxious or uncertain, or if he is attempting to reach an objective far beyond his normal range, the nervous tension shows up in the speed of his stroke.

Alex Morrison's idea is that the golf stroke from beginning to end should be as nearly as possible, one continuous motion. To be absolutely so is, of course, impossible for there is a complete change of direction in the midst of the operation. But this change ought to be made with so little effort that the two motions appear to flow one into the other. In other words the club should go up slowly, and upon reaching the top should begin its descending path just as slowly, rapidly gaining speed until a maximum is reached at the moment of contact with the ball.

SHOULD BE SPEEDED UP GRADUALLY

It is this picture of gradual acceleration which eludes the average player. Once reaching the top of his swing he can see but one thing to be done—to hit as hard and as quickly as he can. He marvels at the apparent ease with which expert players drive great distances, without seeing the application of that phenomenon to his own game. He knows, of course, that his eye is being fooled—that a golf ball has to be struck with considerable power in order to travel three hundred yards—that the stroke which sends it that far is not as gentle as it appears. But he does not always realize that the appearance of ease is simply the result of leisurely and well-timed hitting. When the stroke does not go off half-cocked, an when the club has had time to gather speed before the final charge is set off, there is an entire absence of any appearance of intense effort.

Ease, style, form, timing—all these terms applied to golf mean the same thing—economy of effort. They come to mind when we see the force applied where it will do the most good—behind the ball instead of wasted upon the air. The slow back swing and a slow leisurely start downward are two very useful things to think about when you are striving to acquire any of these virtues.

TWO HOMERS FAIL TO WIN FOR EAGLES

Steve Dunc Crashed Out Two Circuit Clouts But Sons of Canada Win 8-7

Even although Steve Dunc, heavy-hitting right fielder, crashed out two home runs, the Eagles were unable to chalk up a victory last night over the Sons of Canada, in a Senior Amateur League baseball game, losing out 8-7. The Canadians by their victory crept up into second place in the league standing and are now right on the heels of Sidney, the league leaders.

The Eagles threw away their big

chance of tying the score in the ninth inning. Wes Harper, their first baseman, got a free passage to first base with one man away. However, he was a little too anxious to advance and was picked off the base by Bacon, the Sons' catcher. Essler, the next batter up, struck out. Dunc, who followed, smashed out a long hit to right field for his second home run of the game. In the sixth inning, with the Sons one run in the lead, Dunc hit his first home run to even the count. The big right fielder pulled off a pretty catch in the fifth inning of Bacon's line drive, falling to the ground as he gathered in the ball after a long run.

The Eagles played real ball in the first three innings, holding the Sons scoreless, while they scored one run themselves in each frame. The Sons got started in the fourth, and three hits, including a double by Holman, gave them two runs. The Canadians continued their scoring spree in the fifth to add two more runs and take a one-run lead.

The Eagles tied the score again in the sixth on Dunc's home run. A couple of boners by the Eagles' infielders, along with a hit, gave the Sons two runs in their half of the inning.

In the seventh the Eagles scored two runs when Post, the Sons' first sacker, failed to touch his base on a throw from Kerr for the third out and the bases were filled. Nachtrieb, the next

batter, singled over short and two runners romped home.

WINNING RUNS

The Sons scored the winning runs in the eighth. Falconer Campbell hit safely, stole second and scored on Falconer's single to centre field. Harper, the Eagles' first baseman, dropped a throw on Holman's grounder, Falconer going to third. An error by Latham on Gandy's roller, permitted Falconer to come home.

The Eagles tallied their final run in the ninth on Dunc's second home run.

The Sons collected thirteen hits off Holness, while the Eagles nicked Kerr for twelve safe bingles.

Colin Campbell was the leading hitter with four hits out of five times at bat.

The box score follows:

SUMMARY

Left on bases—Eagles 7, Sons 13.

Home runs—Dunc 2.

Double plays—F. Campbell to C. Campbell; Emery to Post.

Two-base hits—Corbett, C. Campbell (2), Bacon, Holman, Essler.

Sacrifice hits, Dunc, Bacon.

Stolen bases—F. Campbell (3), Holman, C. Campbell.

Struck out—By Holness 3, Kerr 5.

Bases on balls—Off Holness 3, off Kerr 1.

Hit by pitcher—F. Campbell by Holness.

Umpires—Moore and McGregor.

Time of game—1 hour 35 minutes.

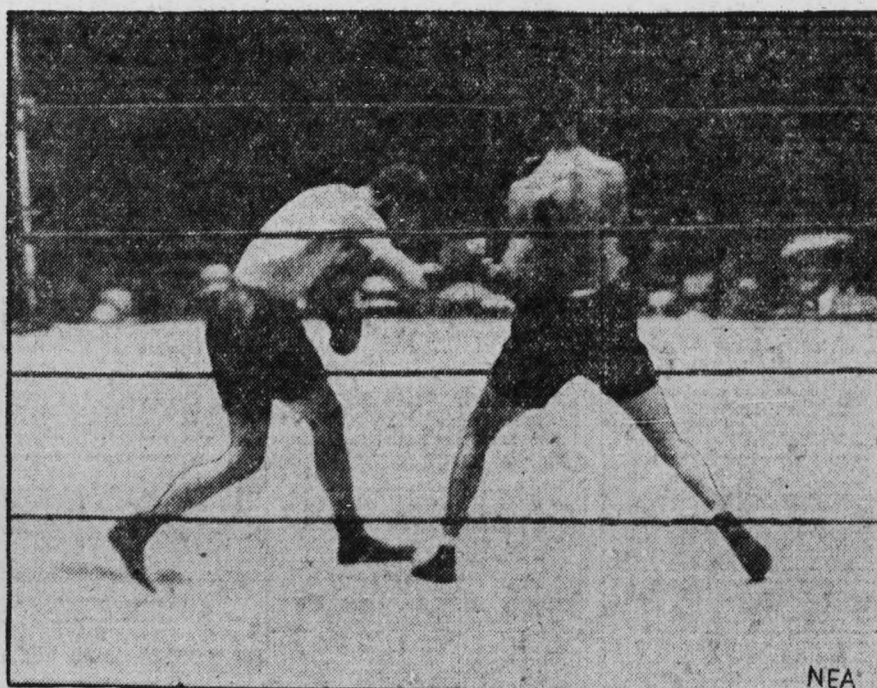

Fans Think Wrong Horse Called Winner; Mob Judge

Windsor, July 4—Angered by what they believed to have been a faulty decision, several hundred men and women rioted late yesterday afternoon, after the seventh race at the Devonshire Park. They stormed the judges' stand and mobbed Charles M. Hall, Detroit, president of the association, and Fred Norval, another steward. George Palmer, the starter, plunged into the struggling mass of rioters to save Hall and enacted a lively role in the scrimmage. Police restored order, dragging men from the fray and handcuffing them.

Cogwheel flashed past the judges' stand a winner by a nose over Penlight, according to the stewards' pronouncement. A crowd which viewed the finish from an angle were jubilant in their conviction that Penlight had streaked in ahead. The trouble started after Cogwheel had been declared the victor. Cries of "Cheer" were taken up and the mob surged toward the stand as the judges appeared.

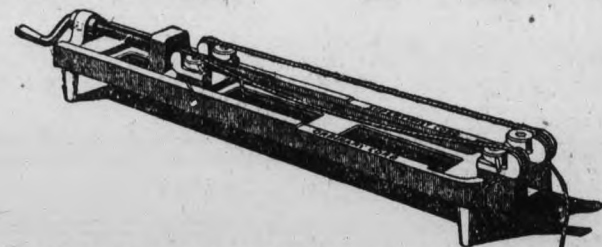

Palmer was standing by the side of Hall when the infuriated mob reached them. He was struck on the back of the head. Track attendants and stablemen, roused to his assistance, jumping into the battle. Fist fights developed for several minutes but apparently no person received any serious injuries.

Schmeling Unruffled By Body Attack

It was the most decisive beating that the valiant Basque ever had received, but slashed and battered, he kept his feet against Max Schmeling. Paolino Uzcudun left, was fighting blindly when this photo was taken in the fourteenth round. He was aiming for the body of the mighty German. But Max is shown starting a left to the head in a bombardment that had the Spaniard practically out on his feet at the belt. Forty thousand fans paid almost half a million dollars to see the bout in the Yankee Stadium.

Even a child can understand the reason!

THE test of a tire is so simple that even a child can select the best. There are two main parts to a tire—the tread and the carcass. The tread to grip the road. The carcass to withstand the strain. Test any tread by pressing your hand on it. Does it grip? Test any carcass by stretching the cords of which it is made. Are they springy, lively, full of stretch?

Make these two tests on a Goodyear Tire at a Goodyear Selected Dealer's. Feel the deep, sharp-edged blocks of the All-Weather Tread grip your hand as it grips the road. Use the dealer's cord-testing machine and see how much a Goodyear Supertwist cord outstretches an ordinary cord. Even a child will choose "the world's greatest tire." In every town in Canada large enough to support a good tire dealer, there is at least one Goodyear Selected Dealer.

DEEP SEA, COASTWISE SHIPPING AND RAILROAD NEWS

Five Vessels In Port Here In Two Days

Empress of France and Emma Alexander Here This Evening With Large Passenger Lists; Moveria and Loch Katrine Expected To-morrow and Pacific Grove on Saturday.

Within the next thirty-six hours, the Rithet piers will see the arrival of five deep sea liners, four of them carrying passengers and the fifth a cargo vessel.

The first ship of this fleet will be the Canadian Pacific liner Empress of France which will sail from this port early this evening for ports in China, Japan and the Philippine Islands with 450 passengers in all classes, 100 in the first cabin, fifty in the second, thirty in the third and 250 in the steerage. The France left Vancouver at noon and was scheduled to come alongside the Rithet piers shortly after 5 o'clock. She will probably get away to sea, en route to Yokohama, her first port of call in the Orient, about 7 o'clock.

The other ship here to-night will be the Pacific Steamship Company's coastal passenger liner Emma Alexander, which is expected about 10 o'clock from San Diego, Los Angeles and San Francisco, with more than 300 passengers in the first class. Fifty-five of these will disembark here and fifty-six tons of cargo will be discharged at this port before the ship proceeds to Seattle about midnight.

FROM UNITED KINGDOM PORTS

To-morrow will see the arrival of the Royal Mail Steam Packet passenger and cargo vessel Loch Katrine, from ports in the United Kingdom with about fifty tons of freight and five passengers for this port. The Loch Katrine will arrive at Race Rocks at 8 o'clock in the city this morning and will berth at the Rithet piers about 9:30 o'clock, according to wireless advice received in the city this morning by A. P. Moffat, local agent, from the master of the vessel, Capt. H. Schlanbush.

The Donaldson liner Moveria will also be here to-morrow with about 150 tons of general cargo from the United Kingdom ports. A. E. Shanks, of

Vancouver Grain Shipments Approach 95,000,000 Mark

Vancouver, July 4.—Grain shipments from the port of Vancouver for the present crop year up to Wednesday totaled 92,526,783, compared with 77,100,000 for the corresponding period a year ago, according to the weekly statement of the Vancouver Merchants' Exchange.

Bookings for July are expected to bring the total for the crop year to 95,000,000 bushels.

Elevator stocks are 4,922,253 bushels with 903,900 bushels on cars or in terminals.

RITHET CONSOLIDATED LIMITED, LOCAL AGENT, EXPECTS THE SHIP HERE LATE IN THE EVENING. HE WILL HEAR DEFINITELY FROM THE CAPTAIN OF THE SHIP SOME TIME TO-MORROW.

Early Saturday morning Kings Brothers, expected the Furness Pacific motor liner Pacific Grove here from ports in England with passengers and cargo for Victoria and Vancouver. So far nothing definite has been received by the local agents regarding the arrival of the ship here. She left San Francisco last night and is proceeding direct to this port.

FISHERMAN FIRES ON YACHTSMAN

Annoyed at Proximity of Speedboat to His Net, Injures Motorboat Winner

Ladner, B.C., July 4.—Apparently fired on by an irate fisherman who feared that his speed boat was about to break through his fishing net, Capt. Thomas Nash, winner of the Bellingham-Vancouver motorboat race on Monday, received several pellets in the head and shoulder early yesterday morning.

Capt. Nash and his party were proceeding down the Fraser River, en route to Bellingham, in his launch, the Lady Bess. The craft had reached a point about half a mile southeast of the mouth of the Fraser when a shot rang out.

Struck on the temple by two pellets, Captain Nash fell, and in his fall broke the gas feed line on his launch. The boat drifted for nearly two hours while Mrs. Nash and two passengers made repairs.

When the launch was able to resume, Mrs. Nash put in to Point Roberts and then escorted her husband to Ladner, where he was attended by Dr. H. E. Kings.

After treatment Captain Nash was removed to the Bellingham Hospital. His injuries are not serious, it is stated.

BROKEN IN HALF ON COLUMBIA RIVER REEF

It's just half of a ship pictured here, the other half of a vessel that broke in two on a submerged reef in the Columbia River on the Pacific coast. The other half sank. True to traditions of the sea, Captain Louis Johnson, who commanded the steamer Laurel, refused to leave his disabled vessel until all of his crew had been safely taken ashore two days after the accident. Note how clean the break appears to be just in front of the bridge deck.

CHARLOTTE TO BE READY SOON

Will Be Placed in Alaska Service About July 20, Following Extensive Repairs

Several days earlier than at first expected, the C.P.R. coastal steamer Princess Charlotte will be released from Yarrow's Limited about July 20, and will immediately be put on the Alaska service, replacing the Princess Adelaide, which has been on the run for several weeks with the Princess Louise and the Princess Alice.

The mishap to the Charlotte seriously handicapped coastal sailings, necessitating the switching of several of the ships, to accommodate the large numbers of people traveling at this time of the year. The Charlotte has been laid up at the Esquimalt plant since about the middle of April when a broken port engine. Work has been rushed so as to have the ship ready as soon as possible.

When the Charlotte is back on the run it will release a number of the ships for their original runs. The Princess Adelaide will be put on the midnight run between Victoria and Vancouver, and the Princess Maquinnia will be available for service to the West Coast of Vancouver Island.

The Princess Maquinnia and the Princess Norah will then operate on a twice-weekly service to the West Coast, the Norah sailing every Saturday for ports as far north as Port Alice and the Maquinnia sailing every Wednesday as far as Queen's Cove. The Maquinnia was originally scheduled to go into this service on the first of this month but on account of the Charlotte mishap has been used in the Gulf Islands and Prince Rupert runs.

After loading 825,000 feet of Vancouver Island timber at the Ogden Point piers, the Canadian National freighter Canadian Importer left last night at 8 o'clock for Montreal, Quebec and Three Rivers. She will be back again at this port about September 21.

The O.S.K. liner Arabia Maru, which is due here next Tuesday from Oriental ports, is bringing about 150 tons of general cargo for discharge at this port. There are also several passengers aboard who will disembark here.

In honor of July 4, Independence Day, the cable ship (cable ship) Restorer, lying moored at the Rithet piers, was gay in strings of flags of all nations to-day.

Bringing 100 tons of cargo, including forty-five cases of manufactured silk goods, the N.Y.K. liner Shidzuka Maru is now steaming across the Pacific Ocean and is expected here on Friday, July 12, from ports in China and Japan. The ship is also carrying a large number of passengers, eleven of whom will leave the liner at this port.

For Seattle the ship has a heavy cargo and twenty first-class passengers and sixteen third-class.

With nearly 300 round-trip tourists, the Canadian Pacific steamer Princess Louise sailed from Vancouver last night at 9 o'clock for Skagway, Alaska and way points. She will return south in ten days' time.

The Canadian Government light-house tender Estevan is tied up at the Esquimalt plant of Yarrow's Limited for general overhaul and repairs to her boilers. She will be there about two weeks.

EMMA ALEXANDER DUE AT 10.45 P.M.

From San Diego, Los Angeles and San Francisco the Pacific Steamship Company's coastal passenger liner Emma Alexander will dock at the Rithet piers here this evening at 10:45 o'clock, a wireless message received at noon to-day by W. M. Allen, local agent, from Capt. G. A. Harris, master of the ship, announced.

For this port the Emma has fifty-five tons of general cargo, while fifty-five passengers will disembark here, most of them to transfer to the midnight steamer for Vancouver. It is expected the Emma will clear for Seattle shortly after midnight. For the Sound port she has nearly 300 passengers.

Thousands Arrive Here to Celebrate U.S. National Day

All Ferry and Steamship Lines Linking Mainland and Vancouver Island Report Heavy Movement of Passengers and Cars; Iroquois Brought in 400 Passengers and Forty-one Cars From U.S. Side This Morning.

SAN FRANCISCO SHIPPING

San Francisco, July 4.—Diversions of two Hamburg-American line cargo carriers to the Pacific-European service of the company was announced here yesterday. The fourteen-knot motor-driven freighter Patricia, due here in September, and the motorship Phylis, are the vessels to be placed on the run.

Arthur B. Swezey, Pacific Coast manager for the Cunard line, sailed from here yesterday on the liner Taiyo Maru, for a tour of the Orient. Swezey's trip is in connection with the recent hook-up between the N.Y.K. line and the Cunard Company.

The Taiyo Maru sailed with a capacity list of passengers.

Celebrating July 4, the United States national holiday, large numbers of visitors from across the line poured into Victoria to-day, practically filling to capacity all steamers and ferries linking the mainland of Canada and the United States with Vancouver Island.

Motor cars bearing license plates of practically every state in the union, from Washington, Oregon and California predominated, were seen on the streets of Victoria to-day, while well on to 2,000 visitors, here for the day only, literally swarmed the downtown section of the city, visiting the stores and taking sightseeing drives.

Transportation men declared this morning that it was the busiest July 4 experienced since out-of-town trips on a holiday became popular several years ago.

RECORD LIST
The days passenger movement started this morning with the arrival of the Puget Sound Navigation Company's steamer Iroquois from Seattle and the Puget Sound Navigation Company's motor car, the largest list she has carried since she was commissioned in August last. Most of these people, as well as the cars, were from Port Angeles, and they will return to their homes across the Strait this evening aboard the ferry steamer Olympic.

The Olympic, which arrived from Port Angeles at 1:15 o'clock this afternoon, also brought in a large number of passengers and cars.

To accommodate the large numbers of visitors here, the Olympic will make an extra trip between Victoria and Port Angeles this evening. Arriving from the United States port at 7:30 o'clock, the Olympic will leave half an hour later for her special trip and returning will leave Port Angeles at 10 o'clock, arriving here about an hour and a half later. In this way Port Angeles visitors will have a longer stay in the city than if they had to return on the afternoon trip of the steamer, which leaves at 3:30 o'clock. Last night the Olympic brought in from Port Angeles 282 passengers and thirty-five cars, one of the largest lists so far this season. Most of these passengers were taking advantage of the July holiday and will return across the line to-day.

SEATTLE EXCURSION
The C.P.R. steamer Princess Patricia brought in nearly 500 passengers on a special excursion trip to-day from Seattle. The Patricia arrived from the Sound port shortly after noon and left on the return trip at 6 o'clock.

Besides the special excursion board the Patricia, the regular steamer Princess Kathleen brought in a large number of Seattle visitors, who spent four hours here and returned this afternoon at 4:40 o'clock aboard the Princess Marguerite.

The Edmonds-Victoria ferry steamer City of Victoria also had a rushing business to-day, carrying nearly fifty cars and a large number of passengers on her trip from Edmonds this morning, which terminated here at noon. The steamer also brought in a large list of both passengers and cars from Edmonds last night.

Up-Island points also reported a large movement of touring cars. Travel between Vancouver and Nanaimo yesterday and this morning was heavy, many motorists from the States taking this way of reaching Vancouver Island. The Steamer Island Princess also did good business as did the ferries operating between Sidney, Bellingham and Anacortes.

Thanksgiving Service Sunday for the Recovery of the King

Empire to Join in Prayer

THE form and order of service to be used in Westminster Abbey at the thanksgiving for the recovery of the King, has been issued from the Oxford University Press and published by The Province of Vancouver. By His Majesty's wish the service is short and simple, and two familiar hymns, which are understood to be his own selection, are included, namely, "All people that on earth do dwell" and "Praise, my soul, the King of Heaven."

While the King and Queen are being conducted to their places in the Abbey, the choir will sing the hymn, "I vow to thee, my country," written by the late Sir Cecil Spring-Rice. After the hymn, "All people that on earth do dwell," the congregation will sing "with heart and voice," a verse of the National Anthem.

There is to be no sermon, the Archbishop of Canterbury giving the Benediction at the conclusion of the Te Deum. As Their Majesties leave the Abbey, Blake's poem, "And did those feet in ancient time," will be sung.

The Form of Service

The text of the full service is as follows:

THE FORM and ORDER of SERVICE to be used in WESTMINSTER ABBEY ON SUNDAY, JULY 7, 1929, IN THANKSGIVING TO ALMIGHTY GOD for

His good Providence whereby our Most Gracious Sovereign has been delivered from severe illness to the comfort of the whole Realm and for the signal love and loyalty of his people made manifest in the time of trouble.

While the KING and QUEEN are being conducted to their places, the choir shall sing:

I VOW to thee, my country—all earthly things above—
Entire and whole and perfect, the service of my love,
The love that asks no question: the love that stands the test,
That lays upon the altar the dearest and the best;
The love that never falters, the love that pays the price,
The love that makes undaunted the final sacrifice.

And there's another country, I've heard of long ago—
Most dear to them that love her, most dear to them that know—
We may not count her armies; we may not see her King—
Her fortress is a faithful heart, her pride is suffering—
And soul by soul and silently her shining bounds increase,
And her ways are ways of gentleness and all her paths are peace.

When all have taken their places, the hymn following shall be sung:

ALL people that on earth do dwell,
Sing to the Lord with cheerful voice;
Him serve with fear, His praise forth tell,
Come ye before Him, and rejoice.

The Lord, ye know, is God indeed;
Without our aid He did us make;
We are His flock, He doth us feed,
And for His sheep He doth us take.

O enter then His gates with praise,
Approach with joy His courts unto;
Praise, laud, and bless His name al-ways,
For it is seemly so to do.

For why? the Lord our God is good;
His mercy is forever sure;
His truth at all times firmly stood,
And shall from age to age endure.

To Father, Son and Holy Ghost,
The God whom heav'n and earth adore,
From men and from the Angel-host
Be praise and glory evermore. Amen.

Then shall the Dean say, the people standing:

GOD SAVE THE KING.
GOD SAVE THE REALM.
GOD GIVE US THANKFUL HEARTS.

And all the people shall make reply with heart and voice:

GOD save our gracious King,
Long live our noble King,
God save the King!
Send him victorious,
Happy and glorious,
Long to reign over us:
God save the King!

Thereafter, the people still standing, the following invitation to prayer and thanksgiving shall be said:

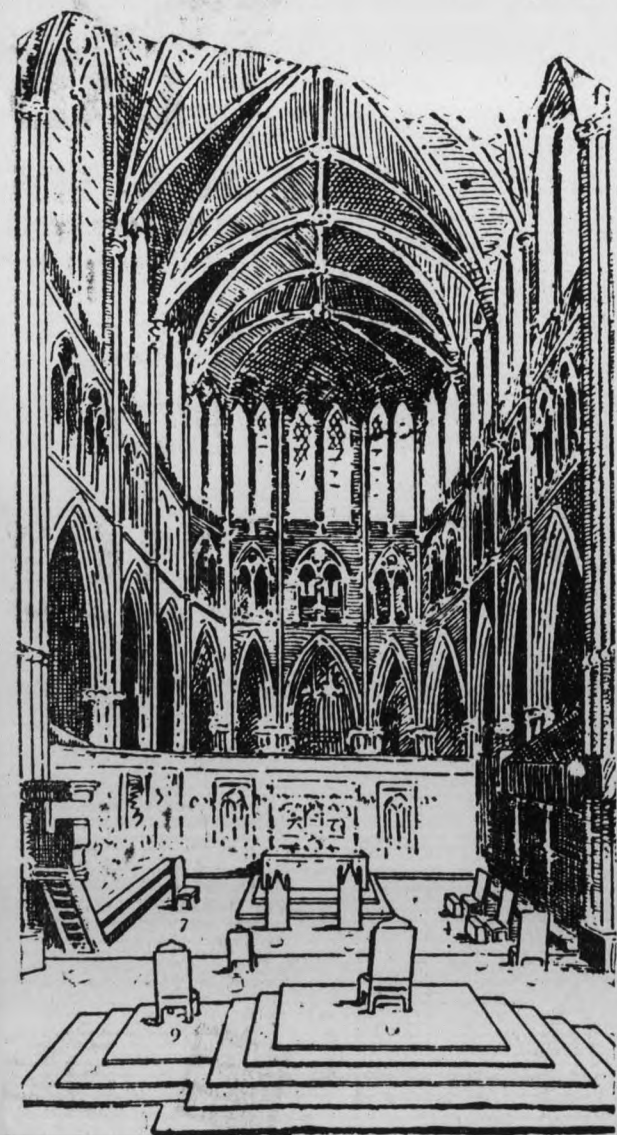

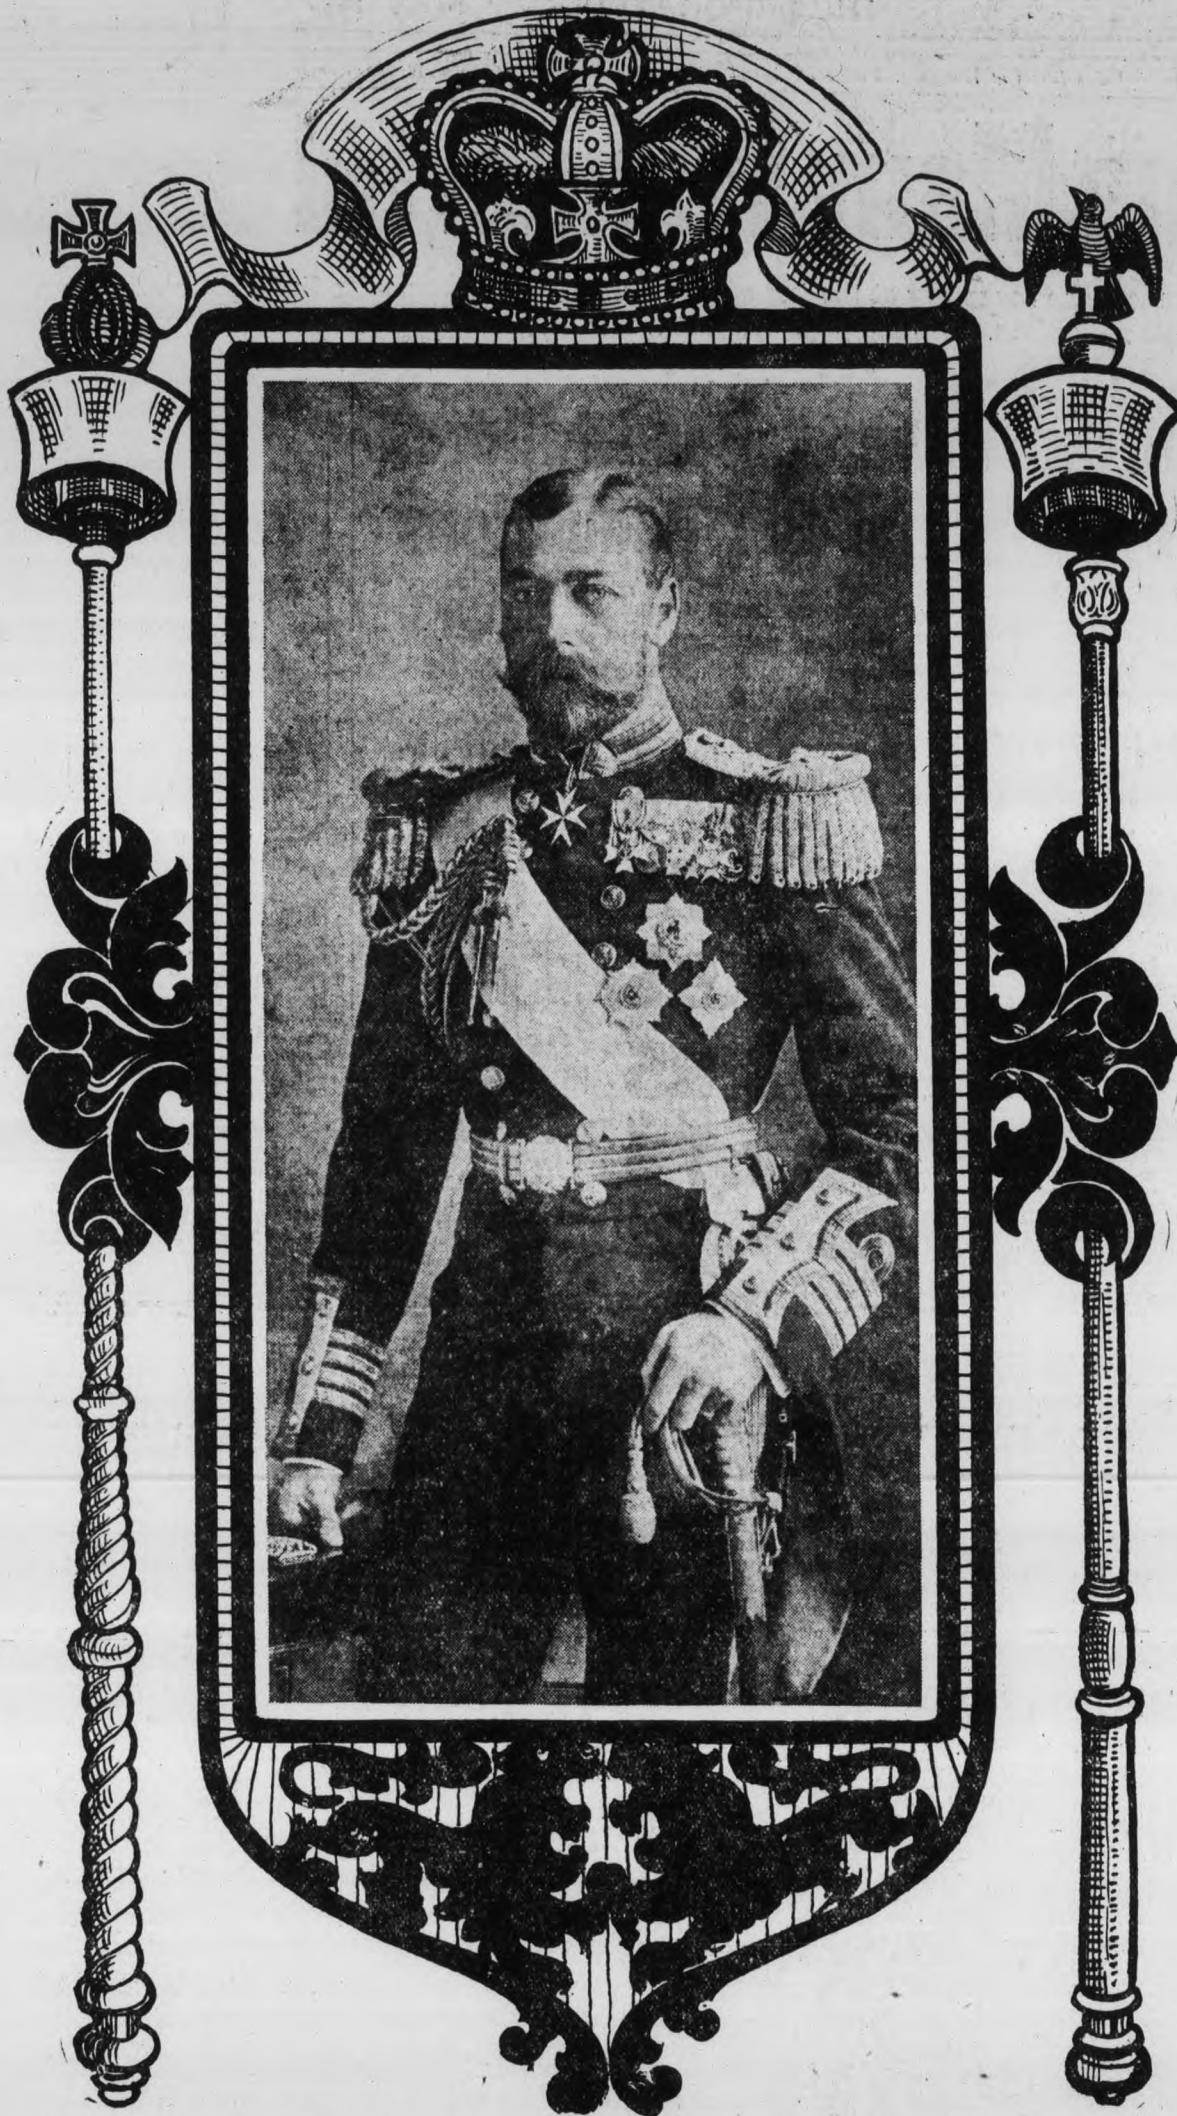

O COME let us rejoice in the Lord our Redeemer.

THE merciful and gracious Lord hath so done His marvelous Works: that they ought to be had in remembrance. Psalm iii 4.

O that men would therefore praise the Lord for His goodness; and declare the wonders that He doeth for the children of men! Psalm cvii 8.

O Lord, thou art my God; I will exalt Thee, I will praise Thy name: for Thou hast done wonderful things, Thy counsels of old are faithfulness and truth. Isaiah xxv 1.

I will go into Thine house; and will pay Thee my vows, which I promised with my lips and spake with my mouth when I was in trouble. Psalm lxxvi 12.

INTERIOR OF WESTMINSTER ABBEY.

O come hither and hearken all ye that fear God; and I will tell you what He hath done for my soul. Psalm lxxiv 14.

Thou hast delivered my soul from death, and my feet from falling; that I may walk before God in the light of the living. Psalm lvi 13.

Thus saith the Lord: In an acceptable time have I heard thee, and in a day of salvation have I helped thee. Isaiah xlix 8.

Now know I that the Lord helpeth His Anointed, and will hear him from His holy heaven, even with the wholesome strength of His right hand. Psalm xx 1.

The King shall rejoice in Thy strength, O Lord; exceeding glad shall he be of Thy salvation. Psalm cxi 1.

Blessed be the Lord God of Israel from everlasting and world without end; and let all the people say, Amen. Psalm cvi 46.

Then shall the people kneel, and the Archbishop of Canterbury shall say: Let us pray.

Lord, have mercy upon us, Christ, have mercy upon us, Lord, have mercy upon us.

Then shall all say the Lord's Prayer.

OUR Father, which art in heaven, Hallowed be Thy name; Thy Kingdom come; Thy will be done; In earth as it is in heaven. Give us this day our daily bread. And forgive us our trespasses, As we forgive them that trespass against us. And lead us not into temptation; But deliver us from evil. Amen.

FATHER of mercies and God of all comfort, we thank Thee that Thou hast heard the prayers of Thy people in this land and across the seas in the day of our trial: We praise and magnify Thy glorious name for that Thou hast raised Thy servant GEORGE, our King from the bed of sickness: And we pray Thee to perfect his recovery and to crown him day by day with more abundant blessings both in body and

soul, through Jesus Christ our Lord. Amen.

ALMIGHTY, and merciful God who art the author and giver of all good things, we praise Thee for the gifts of strength and courage wherewith Thou didst uphold our Gracious Queen Mary; and for the guidance of Thy holy and life-giving Spirit in the counsels and endeavors of all who watched around Thy Servant in his time of sickness.

We thank Thee that Thou hast given our King the joy and comfort of knowing that he possesses the hearts of his people; and we pray that the remembrance of him in thought and prayer made by folk of many races and in many lands may give the promise of a time when all the peoples of the world shall share their joys and sorrows as members of one family in Thee, who art the Father of all.

These our thanksgiving and prayers we offer and present unto Thee through Jesus Christ our Lord, to whom with Thee and the Holy Spirit be all honor and glory, world without end. Amen.

Then shall the Dean say: Let us pray for the Sick and Suffering.

ALMIGHTY God, whose blessed Son Jesus Christ went about doing good, and healing all manner of sickness and all manner of disease among the people: Continue, we beseech Thee, this His gracious work among us, especially in the hospitals and infirmaries of our land; cheer, heal, and sanctify the sick; grant to the physicians, surgeons and nurses wisdom and skill, sympathy and patience; and send down Thy blessing on all who labor to prevent suffering and to forward the purposes of love; through Jesus Christ our Lord. Amen.

Let us pray for the British Empire.

ALMIGHTY God, who rulest in the kingdom of men, and hast given to our Sovereign Lord, King GEORGE, a great dominion in all parts of the earth. Draw together, we pray Thee, in true fellowship the men of divers races, languages, and customs, who dwell therein, that bearing one another's burdens, and

working together in brotherly concord, they may fulfill the purpose of Thy providence, and set forward Thy everlasting kingdom; through Jesus Christ Thy Son our Lord, to whom with Thee and the Holy Ghost be all glory and dominion, world without end. Amen.

Then shall be said by all A general Thanksgiving in the words following:

ALMIGHTY God, Father of all mercies, We thine unworthy servants do give Thee most humble and hearty thanks for all Thy goodness and loving kindness to us, and to all men; particularly to him who desires now with his people to offer up his praises and thanksgivings for Thy mercy vouchsafed unto him. We bless Thee for our creation, preservation, and all the blessings of this life; But above all, for Thine inestimable love in the redemption of the world by our Lord Jesus Christ: For the means of grace, and for the hope of glory. And, we beseech Thee, give us that due sense of all Thy mercies, that our hearts may be unfeignedly thankful, and that we show forth Thy praise, not only with our lips, but in our lives; by giving up ourselves to Thy service, and by walking before Thee in holiness and righteousness all our days; through Jesus Christ our Lord, to whom with Thee and the Holy Ghost be all honor and glory, world without end. Amen.

Then shall follow these Versicles and Responses:

V. Lift up your hearts:
R. We lift them up unto the Lord.
V. Let us give thanks unto our Lord God:
R. It is meet and right so to do.

Then shall the people stand to praise the Lord, and the Hymn Te Deum Laudamus shall be sung as follows:

WE praise Thee, O God; we acknowledge Thee to be the Lord.

All the earth doth worship Thee; the Father everlasting.
To Thee all Angels cry aloud; the Heavens, and all the Powers therein.

To Thee Cherubin, and Seraphim; continually do cry.
Holy, Holy, Holy; Lord God of Sabaoth:
Heaven and earth are full of the Majesty of Thy glory.

THE glorious company of the Apostles praise Thee.
The goodly fellowship of the Prophets; praise Thee.
The noble army of Martyrs; praise Thee.

The Holy Church throughout all the world doth acknowledge Thee: The Father; of an infinite Majesty: Thine honorable, true, and only Son; Also the Holy Ghost, the Comforter.

THOU art the King of Glory; O Christ.
Thou art the everlasting Son, of the Father.

When Thou tookest upon Thee to deliver man; Thou didst not abhor the Virgin's womb.
When thou hadst overcome the sharpness of death; Thou didst open the kingdom of heaven to all believers.

Thou sittest at the right hand of God; in the Glory of the Father. We believe that Thou shalt come to be our Judge.

We therefore pray Thee, help Thy servants; whom Thou hast redeemed with Thy precious blood. Make them to be numbered with Thy Saints, in glory everlasting.

The Archbishop of Canterbury shall then give a Benediction

And thereafter shall be sung:

PRaise, my soul, the King of Heaven;

To His feet thy tribute bring.
Ransomed, healed, restored, forgiven,

Who like me His praise should sing?
Praise Him! Praise Him!

Praise the everlasting King.

Praise Him for His grace and favor
To our fathers in distress;

Praise Him still the same for ever,
Slow to chide, and swift to bless.

Praise Him! Praise Him!
Glorious in His faithfulness.

Father-like, He tends and spares us;
Well our feeble frame He knows;

In His hands He gently bears us,
Rescues us from all our foes.

Praise Him! Praise Him!
Widely as His mercy flows.

Angels, help us to adore Him;
Ye behold Him face to face;

Sun and moon, bow down before Him;
Dwellers all in time and space.

Praise Him! Praise Him!
Praise with us the God of grace.

As the King and Queen leave the Church, the Hymn following shall be sung:

CHOIR.

AND did those feet in ancient time
Walk upon England's mountains green?
And was the holy Lamb of God
On England's pleasant pastures seen?

And did the countenance divine
Shine forth upon our clouded hills?
And was Jerusalem builded here
Among those dark satanic mills?

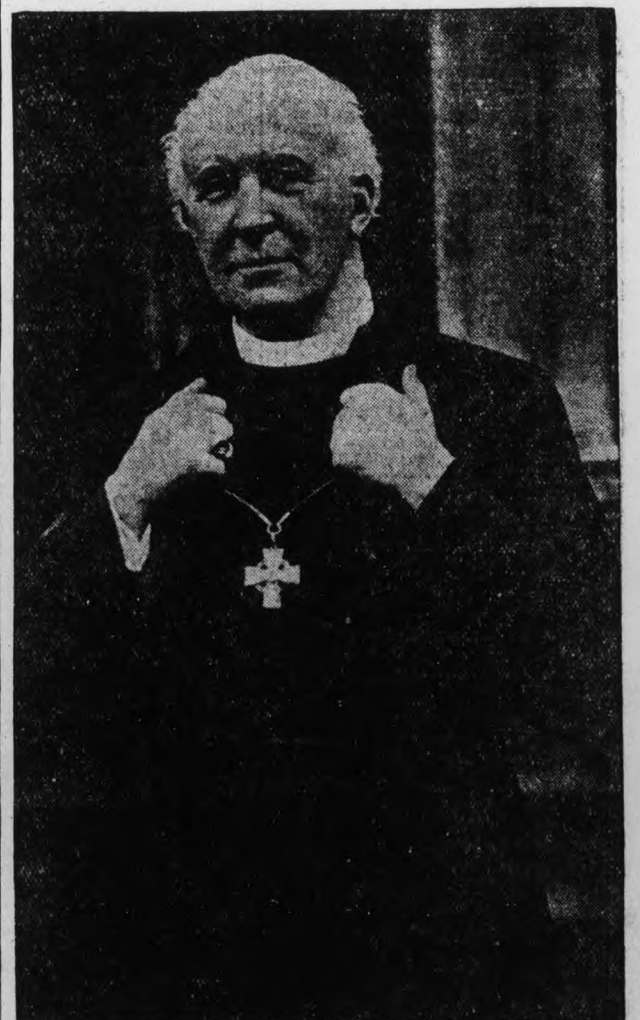

CHOIR AND PEOPLE

Bring me my bow of burning gold!
Bring me my arrows of desire!

Bring me my spear, O clouds, unfold!
Bring me my chariot of fire!

I will not cease from mental fight,
Nor shall my sword sleep in my hand,

Till we have built Jerusalem
In England's green and pleasant land.

RT. REV. COSMOS G. LANG, ARCHBISHOP OF CANTERBURY.

HOUSES AND ACREAGE

A HOUSE WITH LARGE ROOMS appeals to most wives; many husbands like a large garden with fruit trees. We now want to sell a house on a good corner in the Fernwood district which answers to this description. It is exceptionally well built. The main floor contains a conservatory and small den as well as the usual living-rooms. Upstairs there is one large bedroom with dressing-room and cupboard, two other good sized bedrooms, a bathroom and separate toilet. The basement is solidly constructed with hot air furnace, jam room and toilet. The grounds comprise two large lots with arches, house, good cement walks and adequate fencing. Property must have cost at least \$5,000, but we will sell for \$3,500. Moderate terms can be given.

THE ROYAL TRUST COMPANY, Real Estate Department, Belmont House, Victoria.

OLIVER STREET AND BRIGHTON AVE.

EXCEPTIONALLY FINE BUILDING SITE. All good ground and in garden. Price \$1100.

SWINERTON & MUSGRAVE LIMITED, 610 Fort Street, Agents.

NOTICE OF FINAL DIVIDEND

DOMINION TRUST CO. IN LIQUIDATION. In pursuance of an order made by the Honorable Mr. Justice Murphy the 19th day of June, 1929, I, Harry Kirby Burnett, do hereby declare a third and final dividend of two decimal two four eight five (2.2485) cents in the dollar upon the claims against the Dominion Trust Company, which have been allowed by the Court.

The said dividend will be paid at my office, 237 Standard Bank Building, 510 West Hastings Street, Vancouver, B.C., on and after Wednesday the 14th day of August next, until the 31st day of October next. Any creditor who cannot attend personally to so small his cheque, together with his address, all dividends unpaid on the 31st day of October, 1929, will be turned over to the Royal Bank of Canada, Vancouver, B.C., to be held by the said bank as provided in the Winding-up Act.

Dated this third day of July, 1929. H. R. KIRBY BURNETT, Officer of the Supreme Court of British Columbia.

Full particulars Friday's Colonist. Also at 10.30 in our stockyard usual sale of Poultry, Vegetables, Tents, etc.

MAYNARD & SONS AUCTIONEERS

Phone 337.

NAVY BLUE

Instead of black tulle frocks for summer evening dancing, navy blue is seen. A stunning one has a wide circular skirt with a cock flare, embroidered in circles of rose sequins.

BLACK-YELLOW

Black and yellow is a new color combination for lingerie. A night gown of delicate yellow nylon has a wide, pointed yoke of fine black lace. Its set-in belt is of the lace also.

AUNT HET

BY ROBERT QUILLLEN.

"We ain't never failed to give somethin' for missions since we tried not doin' it seven years ago an' Pa had boils all summer."

Unique Trophy Prize of Unique Tour

Upper Centre:—Prince of Wales Cup, trophy unique on North American continent, presented for competition by His Royal Highness to be played for at Banff Springs golf course early in September. Upper Left:—View of Lake Louise where the "Canadian Golfer" tour will stay September 1-2. Upper Right:—Drive across Spray River on No. 1 tee of Banff Springs Golf course. Lower:—General view of Banff Springs Hotel and Bow Valley where the golf course is located.

When the "Canadian Golfer" tour across Canada from Toronto to Victoria and return starts out August 12 next, players of the Royal and Ancient who take in the trip will be participating in the first golfing tour in the history of the sport in Canada and will also have open to them the opportunity to compete at the Banff Springs golf course for the Prince of Wales Cup, the only trophy of its kind presented by His Royal Highness for open competition on the continent of North America. The tour will thus be doubly memorable from a golfer's standpoint. As a further inducement to golfers the tour will take in the Canadian and Western Canada Amateur Golf championships to be played at the Jasper Park Lodge course, Jasper National Park, Alberta, August 19-24. The golfers will arrive at Vancouver on the outgoing trip August 28 and will thence take Canadian Pacific steamship to Victoria, staying at that charming city a couple of days, and returning to Vancouver August 31. In the run from Vancouver to Field on the return journey open observation cars will be at the disposal of the travellers who will thus be able to enjoy in luxury the unequalled scenery of the Rockies through which the train travels. From Field the trip will be by motor car to Lake Louise and Banff, beauty spots of the mountains. They will arrive at Banff September 3 and stay there until September 6, during which time they will take part in the Prince of Wales Trophy competition. Continuing the journey, they will pass through Regina, Winnipeg and Fort William, at each of which cities they will have ample opportunities to play on the golf courses. An unique tour will end when they reach Toronto, September 11. Over and above the great attraction of the Prince of Wales Cup and the diversified golfing to be had in the various cities through which the trip will pass, there is the incomparable beauty of the tour through the mountains. From Vancouver the train runs alongside the wonderful canyon of the Fraser River for many miles and there is a 600 mile run through some of the finest scenery in the world to Banff. But at Field the train trip is interrupted and pleasantly changed for automobiles. Field is the headquarters for Yoho Park and the motorists will get a close up of the famous Takakkaw Falls and the Yoho Glacier. Further on, towards Lake Louise, they will take the corkscrew road that winds along the Kicking Horse Valley with the river of that name many hundreds of feet below them. Lake Louise is an oval sheet of emerald, jade, or what other shade of green can be imagined, framed in mountains which its shadows in its mirror. Forty-two miles of the finest automobile journey in the world follows to Banff along a road bordered by mountains of every conceivable shape and hue. This exhilarating trip will be a fine bracer for the work of competing for the Prince of Wales Cup and a consolation prize for those who fail to win it.

SEMI-FINALS REACHED IN TOURNAMENT

Eagle defeated Hogarth, 6-0, 6-3. Cunningham defeated Eagle, 5-7, 6-1, 6-3. H. A. Phillips defeated R. Butler by default. Raymond defeated Phillips, 6-2, 6-4. Gordon defeated Schwengers, 6-2, 6-3. "VICTORY OVER FEAR"

(Continued from page 4) or die), we should live together with Him (I Thessalonians v). To which we may well reply: "Thanks be to God, Who giveth us the victory, through our Lord Jesus Christ," as we read in that resurrection-chapter, I Corinthians xv 57. BELIEVER. Victoria, June 28, 1929.

RATHER INCONSISTENT

To the Editor:—In the issue of The Colonist June 28 there appears a leading editorial championing a return to the National Policy of the late Sir John A. Macdonald, coupled with the old slogan of "Canada for Canadians." Two or three days later there appears another editorial advocating greater naval preparedness on the part of this Dominion, together with severe criticism of the present Government for being too subservient to the United States to properly attend to Canada's interests in this respect.

If I did not realize that the public is extremely forgetful of this sort of thing, I should be inclined to laugh and let it go at that. But I realize that there is a grave danger of the public being deluded by attractive propaganda, and that the lessons of the past should go unheeded.

I have a great admiration for the late Sir John A. Macdonald, a stalwart foe to Confederation, he became in the end one of its chief advocates. An ardent advocate, at one time, of reciprocity he turned into the principal protagonist

It is possible that this is only a matter of chance? The Colonist editorial on the subject of Naval Defence is really humorous. Nineteen hundred and eleven is a long while ago, but surely it is not so long ago that the Conservative victory at the polls in that year definitely threw into the discard Sir Wilfrid Laurier's proposal of a Canadian navy. By their pact with the anti-navy Quebec Nationalists, the Conservative Party attained power, but only at the expense of the Empire as a whole.

whose interests they blithely sacrificed as they have ever done for the sake of political success. We on the Pacific Coast had the inestimable privilege of having our shores guarded throughout the war by the Japanese fleet, as a result of the political miscalculation of the Conservative Party. One moment! Let us be fair, and not forget the rejected Chilean submarines, purchased by Sir Richard McBride.

W. A. Mitchell, Oldest Marksman at Heaf's Meet, Has Remarkable Record

With the unique record of having been a competitor in local rifle meets for the last sixty-five years, W. A. Mitchell, of Victoria, is a competitor in the fifty-first annual prize meet of the British Columbia Rifle Association now in progress at Heaf's Range. Mitchell is easily the oldest marksman present, and although well advanced in years, is taking a keen interest in the meet.

Mitchell has shot at Wimbledon and Biele three times, in 1881, 1882 and 1887, as a member of the Canadian Biele team. He has also been a member several times of the British Columbia team which competed in the Dominion meet at Ottawa each year.

In 1880 and 1881 he won third prize in the Governor-General's match at Ottawa. In 1881 he was a member of the Canadian team that won the Kola-pore Cup at Biele.

In 1883 Mitchell won first prize in the Governor-General's match at Ottawa. In 1883 Mitchell won first prize in the Governor-General's match at Ottawa.

In 1921 Mitchell was a member of the British Columbia team which competed at Ottawa.

U.S. STEEL STOCK SPLIT-UP AND MELON NEAR AS EARNINGS MOUNT TO NEW HIGH

(B.C. Bond Over Leased N.Y. Wire)

New York, July 4.—With trading closed for Independent Day holiday, discussion in Wall Street today centred around the word that has been passed around that "the next and perhaps the greatest move that the rails have seen since the days of Harriman is right ahead of us."

Undoubtedly conditions are ripe for substantial appreciation in the value of many railroad stocks. But the best advice is that it is advisable to restrict commitments to the strongest issues, as in the long run the greatest profits will accrue to holders of stock in the powerful lines, whose future is not dependent upon prospective developments, or possible acquisition by another line.

STEEL EARNINGS HIGH THIS YEAR

New York, July 4.—The manner in which U.S. Steel has left the other steel stocks behind is convincing evidence that something unusual is pending.

Buying of Steel common has been of such high grade character as to forecast highly important developments in the near future. It is said that directors are now considering a two-for-one split-up of the stock. There is also possibility that a small stock dividend may accompany the capital readjustment.

Steel Corporation is enjoying record earnings and the net for the first half of the year is understood to have approximated \$12 a share on the common stock.

OIL PRICE RISE FORECAST

New York, July 4.—Oil prices may

be advanced in certain sections of the country within the next month, according to reports.

KENNECOTT MAY RAISE DIVIDEND

New York, July 4.—Further increase in Kennecott's dividend to a \$6 basis is considered a probability of the near future. Directors were understood to have had a \$6 dividend rate under advisement in May, but the quick drop in the price of the metal from 24 to 18 cents made for uncertainty, with a resulting compromise. Kennecott is earning at the rate of around \$8 a share annually.

N.Y. CENTRAL OUTLOOK STRONG

New York, July 4.—Although New York Central has enjoyed one of the most spirited advances in its history over the last ten days, the stock showed no signs of technical impairment.

Final approval by the Interstate Commerce Commission of N.Y. Central's proposal to lease Michigan Central and the Big Four means that the income accounts of the three can now be consolidated and some substantial accounting and operating economies can be made. Minority stocks of the two subsidiaries are so small in amount that the guaranteed rental to be paid, namely, dividends of \$50 annually on Michigan Central and \$10 on Big Four common, will only slightly increase the unified system's fixed charges, while earnings of the two roads, largely in excess of those rates, will make direction into Central's treasury.

Importance of this development to Central stockholders is perhaps comparable with that of consolidation of Lake Shore in 1914, which opened a new era in N.Y. Central's earnings and prosperity. With share earnings and equities again pointing upward this year there is little doubt that Central could pay more than its present \$8 dividend whenever the directors see fit to make a change.

New York, July 4.—While the public is waiting for July disbursements to be out of the way, the professionals accumulated long lines of stock, and now that the buying wave has broadened, the public is paying for its lack of foresight.

The advance, however, is still going on and those who enter the market now still have good prospects of seeing their purchases appreciate in value.

Offerings should be well taken and those who still retain a short position will not dare to hold out much

longer and will cover their commitments at substantial losses.

All this will constitute toward rising levels throughout the list.

The advance in oil stocks yesterday, despite the announcement of a new very substantial increase in crude output, is characteristic of the situation in this industry. All agree that profits of the refining oil companies will be much larger this year than they have been at any time during the last few years. Indeed, gasoline prices are on the average higher for day than a year ago, when conditions were not as bad as they seem now. It appears that those who know the situation of the industry are considering the present over-production as a passing event and are willing to take on stocks now while they are still selling at low prices. Extending the position in this group is warranted.

The most promising group, however, is still the rails. There we see tremendous equities behind the stocks, persistent and growing earning power, and prospects of further development.

The entrance of some of the railroads into the aeroplane field will create a new following for this group. Pennsylvania's spectacular performance yesterday is partly due to this development.

UNITED STATES STEEL WILL SHOW REAL MOVEMENT AFTER CROSSING 200

GREAT NORTHERN VALUE HIGH

Great Northern reached the highest levels since March and is about to cross its high. Being an extremely conservative issue, the Great Northern moves with caution. Underlying conditions are favorable and the outlook for the coming months is reported to be exceptionally bright. Great Northern has been considered as an extremely undervalued issue. The book value of approximately \$150 per share is far below the actual value. An appraisal of the company's properties, including its equity in the Chicago, Burlington and Quincy road, will disclose a valuation of better than \$200 per share. Earnings are showing up well and are not for the merger which was being considered by the Interstate Commerce Commission. The dividend would have been increased to about \$7 a share and the stock should have reached a price of \$150. It is still an attractive purchase.

GOODYEAR BULLS GATHER

Chart students maintain that the action of Goodyear recently has indicated higher levels, and Akron and New York banking interests have been some good buying for Goodyear, par-

ticularly on minor recession. Earnings have been running at annual rate of \$15 a share, but this has not yet been fully reflected in the market for the shares.

The groups which are operating in speculative favorites contend that nothing more than minor recessions are to be expected, and are advocating the purchase of recent leaders on any further reactions.

COPPER SHORTS DISCOURAGED

Developments in the copper situation have been forcing some short covering in this group in recent sessions. Many of the traders put out short lines when Anaconda announced curtailment of production on the theory this action indicated a belief in authoritative circles that the price of the metal could be maintained only with considerable difficulty.

Settlement of the reparations agreement has resulted in an exports demand much larger than previously, and recently there has been moderate improvement in buying by domestic consumers. The price of the metal has been held stable at 18 cents per pound, so that some of the shorts became discouraged and took in their commitments. Bidding by these buyers was responsible for some of the advances recorded recently.

MISSOURI PACIFIC OUTLOOK STRONG

Important houses specializing in rail shares as times are optimistic on the outlook for Missouri Pacific, based on the steady growth of earnings and prospects of a continuance of the upward trend. Crops along the line are large and should mean heavy traffic later on. The management has expenses well under control, so that the proportion of net to gross in the future will be better than heretofore.

Allegheny Corporation holds such rails as Chesapeake and Ohio, Chesapeake and Potomac, Nickel Plate, Erie, Wheeling and Lake Erie, Buffalo, Rochester and Pittsburgh and others. Those who believe the rail situation is constantly improving look for a reflection of this condition in Allegheny shares. The company has in the neighborhood of \$50,000,000 cash, and the management is competent to deal with the railroad situation.

150 FOR ANACONDA

Hornblower and Weeks issued the following market opinion: "We understand with the expected return of foreign buying and the

merger announcements made on the part of Anaconda, the copper situation is entering another constructive phase. "Judged by the buying which we have seen, accumulation is going on in both Anaconda and Kennecott by two entirely different groups, with the Kennecott paying a price as high as \$110 for the stock. With Anaconda at less than \$100, the comparable valuation would allow it to sell at approximately \$150. In the circumstances, it is difficult to conceive of a medium of speculation than Anaconda, primarily, and Kennecott as the second unit in the copper industry.

"Trico Products, a strong group has taken a position in the stock here and talk much higher prices for it during the month of July. Its earnings warrant a higher selling price and important developments indicate that earnings will be consistently increasing from now on, due to having contracted to supply over eighty per cent of the automobile industry with the company's product.

"Pullman, in view of the persistent strength in rails and the activity we foresee later this month, we feel the equipment stocks are entitled to consideration, and we would be Pullman as the candidate for leadership in this department. This company always received strong support below current levels and we feel, due to its strength and general investment prestige, we would continue to follow it and buy it at current levels."

N.Y. Market Gossip

New York, July 4.—Adams Mills declared regular quarterly dividends of fifty cents on common and \$1.75 each on first and second preferred, all payable Aug. 1, record July 18.

Nash Motors June shipment cars 9,070 against 12,719 in June 1928 six months 80,284 against 1,730.

June shipments of Marmon and Roosevelt cars were 104.5% ahead of shipments in June last year.

Chicago and North Western and Quincy Railroad handled 147,633 revenue freight cars in June against 146,883 in June 1928.

Gasoline stocks declined 2,367,000 barrels in May. Standard Oil of Indiana reports against 1,190,000 drop in April. Stocks of all oils increased 3,728,000 barrels against 6,275,000 gain in April.

Schulte United Five Cents to One Dollar Stores Incorporated June sales \$1,505,806 against \$1,290,620 in May.

American Machine and Foundry Co. declared extra dividend of one dollar on common and regular quarterly dividends of one dollar on common and \$1.75 on preferred, all payable August 1, record July 19.

The Commonwealth and Southern Corporation soon will make an offer for the shares of Birmingham Electric Co., a subsidiary of the National Power and Light Co. This report, which was substantiated partially in utility circles here, followed on the heels of announcement by Commonwealth and Southern of an offer to Columbus Electric & Power Co.

The American Petroleum Institute estimates the daily average gross crude production in the United States for the week ended June 29 was 2,810,400 barrels, a new high record compared with 2,764,500 barrels for the preceding week, an increase of 50,900.

Pacific Gas & Electric twelve months ended April 30 net income \$14,453,000, after interest, depreciation and Federal taxes.

It is said statement of Kennecott for second quarter will reveal earnings larger than in first quarter and that surplus and dividends will be more than \$5.00 a share annually.

California Railway Commission ordered formal investigation into electric rates of Pacific Gas and Electric for 1927 and Great Western Power for August 1928.

Jewel Tea sales for five weeks ended June 15 \$1,249,698 increase of 10,392 over June 1928.

Montgomery Ward June sales \$21,952,639, increase of 14.5% over June 1928; six months \$122,807,540, increase of 27.2%.

Robertson Airplane Mfg. Co. directors vote to accept offer of Curtiss Keys and Wright Hoyt interests for exchange of stock for Curtiss Wright Corporation stock.

Engineers Public Service year ended May 31 profit \$9,177,044 after taxes, interest, amortization, subsidiary dividends, etc., against \$6,396,550 in preceding year.

Standard Oil of Louisiana bought Liberty Oil Co. of New Orleans. Announcement expected of plans for construction of pipe line from Pan American Gas fields in Texas to Chicago.

Western Canada Utilities Reflect Better Conditions

Montreal, July 4.—(By Nesbitt, Thomson & Co.)—Earnings of western utility companies continue to reflect the improved conditions prevailing in that territory. Net earnings of the Winnipeg Electric Company show an increase of \$105,000 for the first five months of the year, while net for the British Columbia Electric Railway Company shows an increase of \$44,165 for the last eleven months of its fiscal year. Northwestern Utilities Limited, Edmonton, reports an increase in net earnings of \$44,165 for the first five months of this year.

Earnings of the latter two companies, as reported by Nesbitt, Thomson & Co. Limited, are as follows:

B.C. Electric Railway Co. Ltd.—Gross earnings, May, 1929, \$1,175,623; May, 1928, \$1,095,798. Increase of \$79,825. Operating expenses May, 1929, \$845,549; May, 1928, \$820,205. Increase of \$25,344. Net earnings May, 1929, \$530,074; May, 1928, \$475,593. Increase of \$54,481.

Eleven months ended May 31—Gross earnings 1929, \$12,847,132; 1928, \$12,056,243. Increase of \$790,889. Operating expenses 1929 \$6,991,778; 1928, \$6,845,052. Increase of \$146,726. Net earnings, 1929, \$5,855,354; 1928, \$5,211,191. Increase of \$644,165.

Northwestern Utilities Limited—Gross earnings May, 1929, \$86,561.88; May, 1928, \$85,238.75. Increase of \$1,323.13. Operating expenses May, 1929, \$25,753.21; May, 1928, \$20,896.25. Increase of \$4,856.96. Net earnings May, 1929, \$60,808.67; May, 1928, \$64,342.50. Increase of \$6,466.17.

Five months ended May 31—Gross earnings, 1929, \$632,721.96; 1928, \$558,966.88. Increase of \$73,755.08. Operating expenses, 1929, \$153,452.69; 1928, \$129,246.30. Increase of \$24,206.39. Net earnings, 1929, \$479,269.27; 1928, \$409,720.58. Increase of \$69,548.69.

London, July 4.—A Tokyo dispatch to the London Evening News says a strong earthquake in the Wakayama Prefecture sent the inhabitants fleeing from their homes early to day. No loss of life was reported.

MINE PRESIDENT HERE ON CRUISE WITH BIG YACHT

L. P. Larsen of Pend Oreille Finds Brentwood Bay Wonderful Boating Resort

Traveling in his 100-foot private yacht, L. P. Larsen, president of the Pend Oreille Mines and Metals Company, arrived in Victoria today. Mr. Larsen said that he had taken to the water on a hot weather holiday and was making a leisurely tour of Sound and Island ports.

Mr. Larsen's yacht slid up Saanich Arm early this morning and anchored off Brentwood. W. B. Harris, Victoria business associate, went to Brentwood to welcome the mine president. With Mr. Larsen was his wife and daughter, and a party of Washington friends. Mr. Larsen and his family came into the city and were entertained at a luncheon by Mr. and Mrs. Harris at their home, 454 Newport Avenue, Oak Bay.

The Larsen yacht this afternoon was moved around to Sidney where the party will board her to-night to continue their cruise.

SAANICH PLACE

Saanich Arm and Brentwood Bay make one of the most wonderful yachting and boating resorts he has ever seen, Mr. Larsen said. He explained that he was on a holiday this time, and not dealing with business, as British Columbia investors are heavily interested in Pend Oreille he would say that work at the property was advancing rapidly, that the company had all the money it needed, and it was a sound development.

TIMMINS SEES ROAD

Another mining man who arrived in Victoria was Frank Taylor, of Smithers, B.C. Mr. Taylor has come as the representative of Noah Timmins, the Hollinger and Noranda millionaire, to induce the B.C. Government to put a road into the Owen Lake property near Smithers, which Mr. Timmins this week bought and is putting under immediate development.

BODY OF CLIMBER FOUND ON SIDE OF MT. RAINIER

Paradise Inn, Rainier National Park, Wash., July 4.—The body of Forrest Greathouse, who, with Edwin A. Wetzel, lost his life in the tragedy near the summit of Mount Rainier Tuesday had been recovered. It was believed here to-day, when at 11 o'clock observers at Paradise sighted the searching party returning down the Chutes, a 300-foot ice stairway along the side of Gibraltar Rock and a short distance below where the tragedy occurred.

Through a powerful telescope the observers saw the men, some six miles distant, in an air line, lower a heavy burden down the Chutes with a rope, two members of the party going ahead to guide it. While the distance was too great to make sure the burden was the body, even with the powerful telescope, park officials here felt certain such was the case. It will be late afternoon before the party is heard from directly.

LOSSES IN FIRES IN CALIFORNIA ARE \$1,250,000

(Continued from page 1)

The number of homes destroyed at Mill Valley remained unofficially estimated at 125 and the loss about \$1,250,000. Nearly \$1,000,000 of this was said to have been occasioned by the burning of or damage to art treasures and libraries in the homes of the wealthy homeowners.

About 300 persons were said to have been made homeless by the conflagration, but many of these have homes or apartments elsewhere, mostly in San Francisco. There was no suffering, and those who had no place to go were taken care of in the downtown district.

PINE TREES DESTROYED

First news of the Apache Reservation fire reached Phoenix late last night. Telephone operators reported a fierce conflagration in the area, which is the centre of one of largest pine forests in Arizona. A wall of smoke rolled through the White Mountains. It was so thick in Springerville that breathing was difficult. Springerville is north and well outside the reservation.

A fire at O'Neal's in Madeira County, California, swept 90,000 acres, destroying ranch homes, cattle, grain and dry fodder before it was brought under control yesterday.

Five hundred firefighters last night succeeded in checking a conflagration which had burned intermittently in the Santa Cruz Mountains, seventy-five miles south of here, for three days. The blaze charred about fifteen square miles of mountain scenery. A volunteer army of fighters was called out to save the little town of Mount Hermon. Another fire, near Ben Loma, also in the Santa Cruz Mountains area, was checked after covering 3,000 acres of timberland.

FLIERS BLAZE TRAIL ACROSS HUDSON BAY COUNTRY

(Continued from page 1)

Government forestry aerial patrol station is located. Remi Lake is eight miles from Moonbeam.

Perfect flying weather prevailed as the plane turned its nose into the far north with its engines working perfectly and its crew of three confident their craft would carry them across the barren north lands.

There is no radio station at Great Whale, but the aviators took their own wireless as a means of communicating with civilization.

THE START

The giant amphibian, owned by The Chicago Tribune, left Chicago yesterday morning with Bob Grant, pilot, Parker D. Cramer, co-pilot and navigator, and Robert W. Wood, aviation editor of The Tribune, aboard. Milwaukee was their first stop and Sault Ste. Marie, Ont., the second. From the latter place the airmen flew to Remi Lake, completing 1,000 miles on the first day of their flight. They hope to reach Berlin in five days.

Selected Diversified Securities

After a period of extensive public interest in listed securities, long-term bonds and investment, preferred stocks have come again into public favor. Recent underwritings which we have originated or in which we have participated with associates include a diversified selection of attractive government, municipal and corporation securities.

We shall be pleased to provide investors with full information concerning our recent offerings of securities issued by the following governments, municipalities and corporations:

Canadian National Railways
(Guaranteed by the Dominion of Canada)
Province of Ontario
Province of British Columbia
City of Quebec
City of Toronto
City of Vancouver
Beatty Bros. Limited
Service Stations Limited
International Milling Company
National Sewer Pipe Company Limited
Frost Steel and Wire Company Limited

CHAPTER VIII

At 11 o'clock the next day, Saturday, a very miserable private secretary awaited the arrival of her employer at his law offices. Nan Carroll had not seen John Curtis Morgan since the night before, when she had watched him leave his home in company with the men from police headquarters, and the accused man, Herbert S. Crawford.

She had lingered only a few minutes in the Morgan living-room, offering brusque reassurance and sympathy to Iris Morgan, who had crumpled into a chair like a broken stalk of the flower for which she was named.

The morning papers had "broken" the story on the front page, with enormous headlines but very little real information in the small type below. On charges suddenly and frantically preferred by the secretary of the Mid-West Packing Company, a new corporation, of which Herbert S. Crawford was president, warrants for the arrest of both the president and the treasurer had been issued. The treasurer, Roy Bland, had not been found, and there were rumors, according to the papers, that Bland had made good his getaway.

According to the secretary of the company, the chairman of the board of directors had a letter of resignation from Bland, but had not yet met to act upon it when the company's auditor had discovered a shortage of nearly 250,000 in the corporation's bank accounts.

The money had been accumulated during the last month in a sensational, whirlwind stock-selling campaign, and was to have been speedily used in building a huge packing plant. It was the successful promotion of this enterprise which Crawford had been celebrating at the home of Morgan the night before.

It had been on information obtained from Gladys Payne, private secretary of the vanished treasurer, that Crawford had been drawn into the case, but what this information was the district attorney's office had refused to divulge.

"Miss Payne," one of the papers stated circumpectly, "confessed that she was the fiancée of the accused treasurer, and stoutly maintains that he is innocent of the charge of embezzlement, alleging that he was duped in the hands of a clever man. She admits, however, that she has had no word from Bland since he left the city ten days ago, ostensibly on his way to Chicago on business for the firm."

"It was largely due to Bland's failure to communicate with the company since his departure for Chicago that Secretary Crane, who is also assistant general manager of the company, asked the auditor Friday to check the bank balance, and the big shortage was discovered. Crawford was not taken into Crane's confidence when his suspicions of the treasurer were aroused, and a few hours later both warrants were issued."

"Well, I'm glad I won't have to worry about it," Nan reflected, as her fingers flew over the typewriter keys, answering letters which did not require Morgan's personal attention. "Here's my letter of resignation and I'm going to present it, too. I'll be

fool scheme, and I staked him to a trip home.

"After we got back to the states I was able to put him next to a good thing every now and then, till he'd got quite prosperous again. When I got busy on this packing company merger, I naturally remembered him and sent for him to come on and get in on the ground floor. Good, dependable chap, always a little cracked on the subject of South America, but one of the best friends I ever had. I tell you, Jack, it knocks me cold to find out that Roy Bland double-crossed me and the people who trusted me to protect their interests."

"Probably," Nan put in quietly, "your close association with Bland in the past is one big reason you're suspected now of being his accomplice."

"Good Lord!" Crawford ejaculated, outraged. "Just because a man is unfortunate enough to have a friend who turns crook—"

"Keep your shirt on, Bert," Morgan admonished him quietly. "Nan's right. We've got to look at this thing from the district attorney's standpoint, not yours. And your friendship with Bland, your having brought him into the company, will certainly score against you. Now, Bert, what do you know about this Gladys Payne, Bland's secretary? She evidently has more up her sleeve than came out at the preliminary hearing this morning."

Crawford flushed, then laughed apologetically. "Well, I guess I used to jolly her along pretty freely, before she became engaged to Bland, if she was engaged to him—"

(To be continued)

ACCUSED ADMITS HE HAD OPIUM

Vancouver, July 4.—Pleading guilty to a charge of having opium in his possession, Fred Brooks, twenty-three, was remanded in county court here yesterday Judge Ruggles till July 18 for sentence.

Sentence will be imposed the same day by the judge on Joseph Knowles, twenty-two, who had previously pleaded guilty to a similar charge relating to the narcotics.

Preparatory to trial, Royal Canadian Mounted Police had on hand a foot collapsible canvas boat which Knowles allegedly used to transport the opium, consisting of ninety-five tins, valued at \$50,000, ashore from the liner Empress of Asia.

H. S. Wood, K.C., who appeared for the Department of Health, with A. C. Desbriay, counsel for the Attorney-General, explained the boat had been lowered through a hole in the floor of C.P.R. Pier B.C. When not in use the craft was raised above the water among the piles.

The plan, as evolved by the narcotic smugglers, was simple as disclosed to the police. With the Oriental liner Empress of Asia moored to the pier, the boat on the night of May 24 was lowered to the side of the steamship.

A Chinese confederate, whose identity has not yet been discovered, tossed the sacks of opium through a porthole into the boat. Carrying the cargo of narcotic contraband, Knowles paddled his fragile canoe or coracle to a place under the pier, where, unknown to the smugglers, R.C.M.P. and customs officers awaited him.

Buildings Destroyed By New Hebrides Quake

Sydney, N.S.W., July 4.—The Seventh Day Adventist Mission here to-day received a wireless message stating a severe earthquake had shaken Erromanga Island in the New Hebrides group, June 28, and destroyed the mission station at Dalap and the Presbyterian station at Gray's Cove.

There was no loss of life, the missionary, W. H. Taylor, with his wife and child, and native converts being safe at Aoke Station, a trading centre. It was presumed the Roman Catholic Mission between Dalap and Gray's Cove also was destroyed.

BRITISH BY-ELECTION

London, July 4.—Thomas J. Mason, defeated as Labor candidate in Twickenham in the general election, has again been elected by the local Labor caucus to fight the by-election necessitated by the elevation of Rt. Hon. Sir J. J. Hicks to the peerage.

—By AHERN

ON THE AIR

THURSDAY, JULY 4

CFCT (475.9) Victoria, B.C.
6 p.m.—(No market quotes broadcast.)
6:15 p.m.—The Sunset organ recital will be presented by Edward Parsons. Details follow: "Grand Chorus in D"; "Song of Triumph"; "Adoration"; "Finlandia"; "Schubert"; "March Brillante"; "A Song of India"; "Pomp and Circumstance"; "The War March of the Pirates," from "The Pirates of Penzance."

7:15 p.m.—"What's Doing in Town"; Savor's Garden Bulletin; official weather report and forest fire summary; "Scrap Book"; West Coast Information Service; "Lorie Watch" correct time signal.
11 p.m.—The Crystal Garden orchestra.

National Broadcasting Company
6:30 p.m.—Haley Stuart programme (Transcontinental).
6:30-7 p.m.—"Around the World With Libby".
7:30 p.m.—NBC Troubadours.
7:30-8 p.m.—Standard Symphony hour.
8:30 p.m.—Longines correct time.
8:30-9 p.m.—Memory Lane.
10-11 p.m.—Slumber hour.
11-12 p.m.—"The Trocaderoans."

American Broadcasters' Programme
(KJR, Seattle, carries the entire programme)
5:30-6 p.m.—Song Travelers.
5:30-6:30 p.m.—American Salon orchestra.
6:30-7 p.m.—Campus Memories.
7:30 p.m.—Chronicles of Katz.
7:30-8 p.m.—Vic Meyers.
8-9 p.m.—American Opera Company, directed by Jacques Jou-Jerville.
8:30 p.m.—Anthony Euwer, Bard of the Air.

Smuts to Continue

As Party Leader

Capetown, S.A., July 4.—Colonel Denys Reitz has denied as an "absolute canard" a report in the Government organ Die Burger that General Jan Christian Smuts would hand over the leadership of the South African Party to a triumvirate.

Colonel Reitz was named by the newspaper as a member of the triumvirate to which it was stated General Smuts would leave the leadership of the party for a year at least.

CROSSWORD PUZZLE

HORIZONTAL

- "Mont —" what is the highest of the Alps?
- Elementary books for teaching children to read.
- Heavy cold.
- Deliv.
- Word of skill.
- Roosting material.
- Eye tumor.
- Maeculine pronoun.
- Rock.
- Type of a snowshoe.
- Figure.
- Intends.
- Asile.
- What title was given to a ruler of a Mohammedan state?
- Simple.
- Bilk net.
- Born.
- Contents.
- Abbreviation for "pair."
- Possesses.
- Insulates.
- To strike.
- Paid publicity.
- One who handles furniture at a warehouse.
- Compartments of a window.
- Director as of a theatre.
- Destined.

VERTICAL

- What is a person of the highest caste among the Hindus called?
- Knowledge.
- Ready said of wit.
- Point of compass.
- A tool for smoothing boards.
- Ceremony.
- Frozen water.
- Myself.
- What is the name of the membrane of the eye which receives the image formed by the lens?
- Sneaky.
- Side as of a hill.
- Strip of wood forming a portion of the side of a barrel.
- Steel runner on a shoe used in traveling over ice.
- A smelter.
- Barbers.
- Pig pens.
- Hybrids between the horse and ass.
- Forced air through the nose, loudly.
- Of what country is "William Mackenzie King" prime minister?
- An unusually excellent grade.
- Habitual drunkard.
- Cavern.
- Pir tree.
- Cured thigh of a hog.
- To dress.
- Headgear.
- Mother.
- Dad.

RADIO REPORT TO BE ISSUED SOON

Ottawa, July 4.—Government control of all broadcasting stations and elimination of advertising from the programmes, with the listeners-in paying the upkeep by license, were advocated before the Royal Radio Commission at its final session here yesterday by the All-Canadian Congress of Labor and the Canadian Legion of the British Empire Service League.

The All-Canadian Congress representatives also recommended the present commission be continued, or a similar organization be established with complete administrative control of radio broadcasting.

The Canadian Legion advocated a broadcasting organization that would develop imperial patriotism and Canadian culture. Canadians, said the Legion brief, were being overwhelmed with foreign programmes, charged with propaganda.

The commission will at once begin the preparation of its report. It will probably be available about the end of the month.

HERBERT GARRESON TO BE HEARD OVER CNRV ON FRIDAY

CNRV will, on Friday, July 5, at 12:25 p.m., broadcast the speech of Mr. Herbert Garrison to be given at the Canadian Club luncheon, Hotel Vancouver. Mr. Garrison, whose subject will be "Cameos of the British Empire," is one of the most prominent and acceptable platform speakers in Great Britain. During the war his Empire lectures were called for in all parts of the British Isles by various departments of the British Government. He is now studying Canada at close quarters to obtain first-hand information for a series of lectures on Canada to be given in the Old Country on his return.

SANDHOGS FIND VERY OLD RUM

New York, July 4.—"Sandhogs," working forty feet below the level of the East River in the foundation for a sixty-three-story office building at 100 Wall Street, found 100 bottles yesterday which officials of the construction company said contained West Indian rum at least a century old. The building is being constructed on filled land near South Street and it was supposed the liquor may have been part of a cargo once wrecked in the river.

Liquor Exports Of Canada Decrease

Ottawa, July 4.—Liquor exports to the United States fell off \$356,550 during June, according to figures published yesterday at the National Revenue Department. The total value during June was \$1,213,756.

Officials of the department declined to comment on the suggestion that the reduction was due to more strength in enforcement of the United States prohibition officials.

Smart Doings of Animals

Dog Understands Unexpected Command

Frederick L. Stoddard, the well-known painter of murals and water colors, used to own a terrier which he claimed was as understanding as a human being.

One day Mr. Stoddard threw a stick for "Skip" to fetch. It fell into a clump of "rag" weeds which were in bloom and every time the dog tried to search for it, pollen got in his nose and made him sneeze. "Skip" looked at his master despairingly.

"That's all right," said Mr. Stoddard, "let that stick go, get another."

Without a moment's hesitation, "Skip" dashed off gaily and quickly found another stick for his master to throw.

PICCADILLY

Smoking Mixture

For Office Desk and Den at home,

buy Piccadilly in the handsome Humidor Glass Jars, containing a half-pound of this delightful pipe tobacco.

Also in hermetic tins at 25c. \$1.50

Japanese Reparations Delegates In Vancouver

Vancouver, July 4.—Confidence that the Governments of the several powers concerned will ratify the agreement reached in Paris on reparations was expressed yesterday by Sir Kengo Mori, member of the Japanese House of Peers.

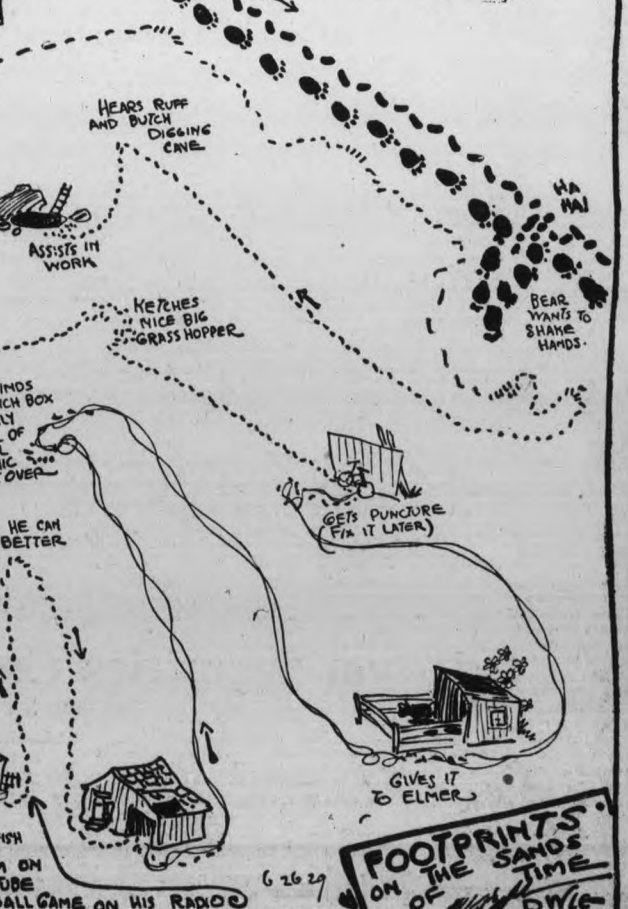

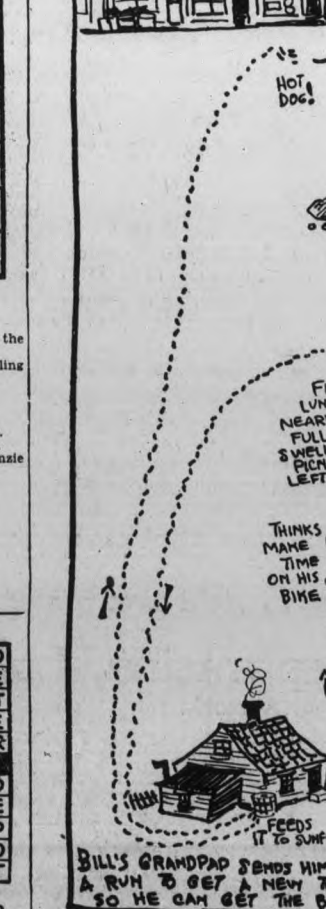

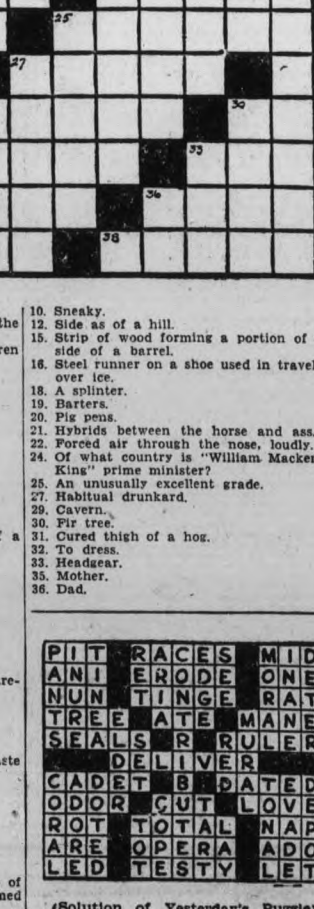

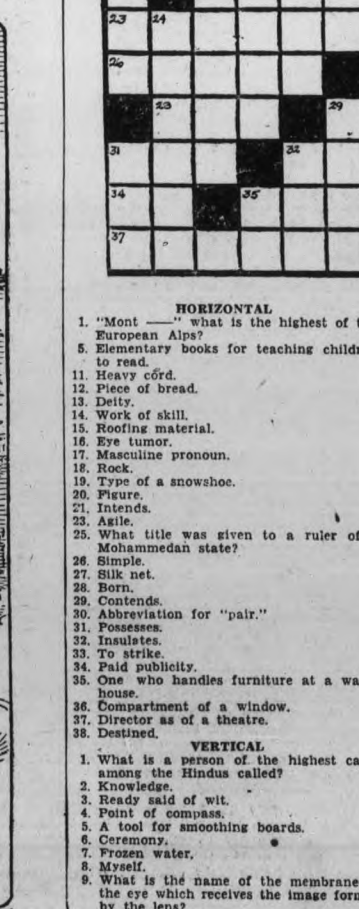

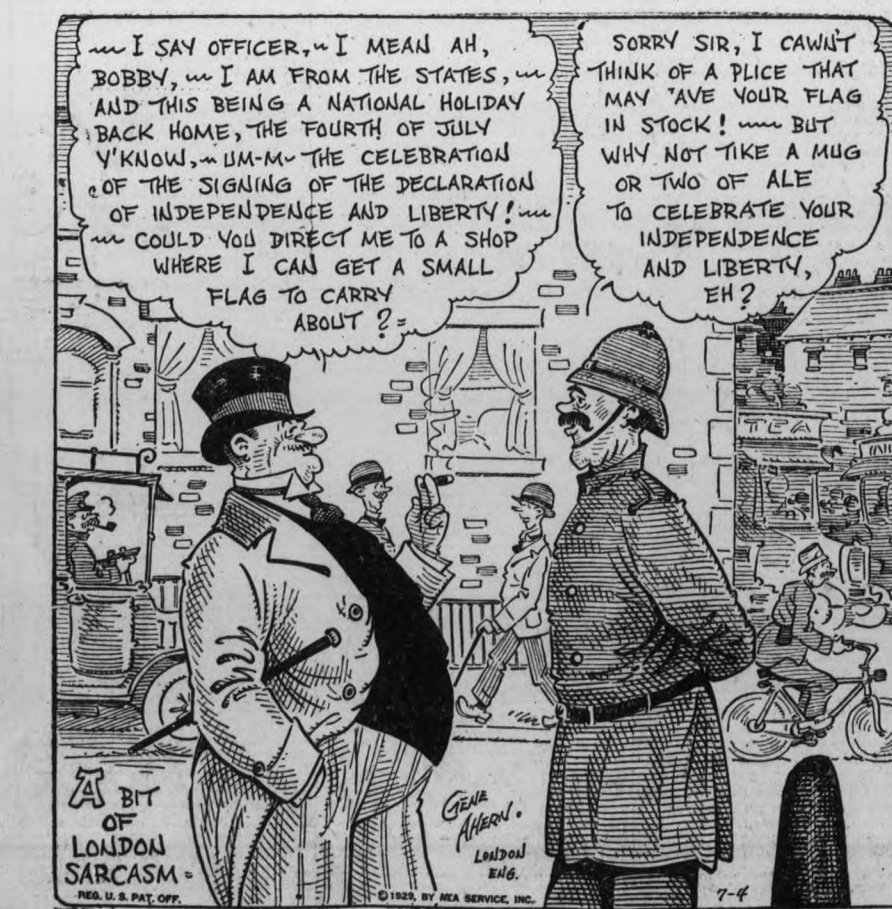

"It is the most significant step taken so far toward final settlement of the war differences among the nations," he said, expressing his belief that the world would recognize it as the only solution of problems "which must be disposed of in the great effort to banish war forever."

Excess acid is the common cause of indigestion. It results in pain and sourness about the hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention. One spoonful of Phillips' Milk of Magnesia neutralizes instantly many times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer, when you learn how quickly, how pleasantly this premier method acts. Please let it show you—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore. (Adv.)

OUR BOARDING HOUSE

THURSDAY, JULY 4

Donald R. McNeil, Fifth Street, Sidney, B.C. (7).

Little Lamb Boy Found Joy in Books and Cats

Nathaniel Hawthorne loved cats and books. When he was quite a small boy he hurt his foot during a game and for a long time was lame, so that he could not play with other boys. He had to find his own amusements, which had to be quiet ones. He thought he would like a dog to play with, but dogs wanted to go outdoors and romp. They weren't very good playmates for little lame boys. So his mother got him a cat, and the two became great friends.

That cat was willing to curl up beside Nathaniel by the fireplace. The lad would have a big book by Shakespeare spread out on the floor and would read it lying on his stomach, his chin resting on his hands. When he grew tired of that position, he would roll over and play with his cat.

Between his cat and his books, it never occurred to him that his boyhood was a lonely one.

When he grew up, Nathaniel Hawthorne, born 125 years ago to-day, became a great writer. He outgrew the lameness that had handicapped him, but he never outgrew his love for books—and cats.

BEDTIME STORY

Uncle Wiggily and the Fire Root

(Copyright, 1929, by McClure Newspaper Syndicate)

By HOWARD R. GARIS

"Are you going to do anything special to-day?" asked Nurse Jane Fuzzy Wuzzy of Uncle Wiggily.

"No, nothing special," answered the rabbit gentleman, slowly blinking his eyes for the sun was bright and tickled them a little. "I was going out to look for an adventure, Nurse Jane, but there is no hurry about it."

"Adventure!" exclaimed Miss Fuzzy Wuzzy. "I should think you had adventures enough yesterday with your Fourth of July fireworks."

"Yes, I did have a good time," said Mr. Longears. "But I want some more fun to-day, so after I do you the favor I think you are going to ask of me, I'll hop to the woods and see what happens."

"Why, how lovely!" exclaimed Nurse Jane. "It is to the woods I was going to ask you to hop for a favor. So if you go there for me you can also go for an adventure. And won't that be nice?"

"Wonderful!" chuckled Mr. Longears. "But what favor did you want me to do for you in the woods, Nurse Jane?"

"I wish you would bring me some artichoke roots," answered the musical lady housekeeper. "You know what I mean—the roots of the wild sunflower. They are as good as potatoes to eat and your wife wants some for dinner. Bring me some wild sunflower artichoke roots."

"I shall do that," promised Uncle Wiggily. So he began to get ready to hop off to the woods by twinkling his pink nose. Just as he was about to start he heard two voices calling after him:

"Wait for us, Daddicums!"

"Take us with you, Daddicums!"

Jingle and Jangle, two of Uncle Wiggily's little rabbit girls, came running after him, for they did not need to go to school, now that the Long Vacation had come, so they had nothing special to do.

"All right, kiddikins!" exclaimed Uncle Wiggily who was glad to have his little girls go adventuring with him. "You can help me dig the wild sunflower artichoke roots for Nurse Jane."

"Oh, what fun!" cried Jingle.

"We'll dig lots of artichoke roots!" said Jangle.

It did not take the three rabbits long to hop to the woods and in a little while Uncle Wiggily had found where some wild sunflowers were growing. The roots of these grew up where as good for rabbits to eat as potatoes are for you. Sometimes they ate the artichoke roots raw, and sometimes Nurse Jane boiled them.

"Here you are now, kiddikins!" called Uncle Wiggily to Jingle and Jangle. "Dig up the roots!" He pointed to the wild sunflower stalks.

Rabbits have good paws for digging and soon Jingle, Jangle and Uncle Wiggily were scattering the dirt and getting out the white roots of the sunflower stalks to take home with them.

"May we eat a little root, Daddicums?" asked Jingle when she and her sister had dug a nice pile of artichokes.

"Of course you may eat some of the roots you have dug," said Uncle Wiggily kindly. "We will now have a little recess," he said with a smile, "and sit down to eat artichokes."

The three rabbits sat down on a green, mossy stump and began to eat the sweet, juicy roots they had dug, when, all of a sudden, there was a rustling in the bushes and a harsh voice growled:

"Speaking of eating, I'm going to do some myself!"

Out of the bush sprang the Bob Cat with his silly little tail. He was just going to make a jump and perhaps bite Jingle and Jangle both at the same time for all I know, when Uncle Wiggily asked:

"Would you like to eat an artichoke, Mr. Bob Cat? I think it will be good for you."

"Then give me an artichoke!" growled the Bob Cat. "And after I

To-morrow's Horoscope

FRIDAY, JULY 5, 1929

This should be a fairly fortunate day in planetary direction, according to astrology. Benefic aspects dominate.

The morning hours may be rather trying for workers and for the aged, both of whom may be sensitive to weather conditions.

Under this sway ocean voyagers are supposed to be fortunate and those that lead to study of international relations should be especially profitable.

The navy and naval officers come under a rule making for increase of public interest.

This is a day for making big plans and for studying organization and efficiency. Persons who employ workers to-day should be fortunate in choosing both men and women.

Business of every sort is subject at this time to the best planetary influences. Prosperity will continue to open new avenues of trade and commerce, the seers foretell.

Again youth is subject to the most helpful and stimulating planetary aspects. Graduates of classes of '29 are to attain high places.

Poetry and idealism are to blend amazingly with practical everyday realism. It is foretold. Thus super men and women are to develop.

This should be a fortunate wedding day, for it promises enduring love and growing prosperity, even though it is Friday.

Music continues under the best planetary influences, and although artists may fear the effect of mechanical reproductions of sound they are not to suffer loss, the seers prophesy.

The recent conclusion of Mars and Neptune is supposed to be sinister in its influence. Crimes of violence will be prevalent, and poison rates are to be used in new ways for evil purposes.

Persons whose birthdate it is have the aurore of certain anxieties in the coming year, which should be fortunate, if wisely lived.

Children born on this day probably will be extremely shrewd, resourceful and clever. These subjects of Cancer require the most careful training.

Admiral Farragut was born on this day, 1801. Others who have claimed this as a birthday were Phineas T. Barnum, showman, 1831; Cecil Rhodes, 1853; Ludwig Beckman, genre painter, 1844.

(Copyright, 1929)

eat that I'll try a rabbit," and he looked hungrily at Jingle and Jangle.

Uncle Wiggily quickly dug up another root, though the little bunny girls thought he had had enough already dug, and tossed it to the Bob Cat.

"Eat that! Chew it up quick!" cried Mr. Longears.

The Bob Cat chewed hard and a queer look came over his face. He puckered up his nose, gasped for breath and jumped up and down as he yelled:

"Oh, how I burn! Oh, how my tongue smart! Water! Water! Water!"

"Ha! Ha!" laughed Mr. Longears as he watched the Bob Cat run off to cool his burning mouth in a spring.

"Serves you right. I gave him a piece of fire root, or horseradish. Instead of artichoke to chew on," Uncle Wiggily told Jingle and Jangle. "Horseradish is very hot."

So everything happened for the best. And if the clothes horse doesn't kick up his heels and spill the napkins, I'll tell you next about Uncle Wiggily's lemonade.

WOMAN KILLED IN AUTO CRASH

Vancouver, July 4.—Mrs. Harold Smith of Coquitlam, B.C., was killed, and Harold Smith and his eight-year-old son, Reginald, were injured when an automobile driven by Mr. Smith fell off the bridge crossing the Nicko-mackal River on the Pacific Highway two miles south of Cloverdale late last night. Mr. Smith and his son were taken to a hospital in New Westminster by a passing motorist. They are suffering from cuts, bruises and shock.

HIT-AND-RUN DRIVER HUNTED

Winnipeg, July 4.—An unknown hit-and-run automobile driver was blamed last night by a coroner's jury here for the death of Jean Baptiste St. Germain, seventy-one-year-old St. Vital resident, whose mutilated body was found in the ditch beside St. Mary's Road early on the morning of June 16. Evidence showed the old man, after being struck by the car, had been dragged from the highway and thrown into the ditch. In its verdict the jury urged police to continue search for the driver of the car.

Boots and Her Buddies—Still Waiting

GEE, BIG BOY—YOU SURE ARE A SWEET ADDITION TO THIS ISLAND—I DUNNO HOW I'D MANAGE WITHOUT YA

YEH! I'M A BIG HELP, ALL RIGHT—I FOUND YA, BUT WHAT GOOD HAS IT DONE?

WELL—IT'S PEPPED UP TH' ELEMENT OF SUSPENSE! AN' BUILT TH' LITTLE GIRL RIGHT UP, AN' IT WASN'T YOUR FAULT THAT YOUR SILLY PLANE RAN OUTTA GAS, AN' AREN'T YOU FUNNY?

WELL, LET'S GO UP AN' SEE IF MY LAUNDRY IS STILL OUT

YEP! THAR SHE BLOWS

THAT OUGHTA CATCH SOMEBODY'S EYE! IT LOOKS LIKE STAYING AWAY FROM THIS ISLAND IS ALL TH' RAGE NOW, EH? WELL, YOU STICK AROUND UP HERE—WHILE I RUSTLE UP SOMETHING TO EAT

BUT, I WANNA GO WITH YOU—WHY SHOULD I STAY UP HERE?

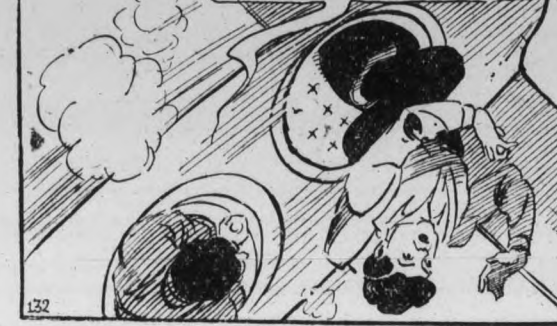

TO ATTRACT ATTENTION! I NEVER KNEW YOU'D BE ANYWHERE OUT IN PLAIN SIGHT, LONG BEFORE SOMEBODY SHOWED UP

Flying to Fame—Peevie's Round

NOW WHO'S THE WISE GUY? I THINK THAT OVER ON YOUR WAY DOWN—AND DON'T FORGET TO PULL YOUR RIP CORD

SAY-Y! WHAT'S THAT SAP DOING NOW DOES HE THINK HE CAN LOOP THAT SHIP?

GOOD NIGHT! THAT'S JUST WHAT HE'S DOING!

GEE! WHIZ, CURLY—HOW'D THIS HAPPEN? ARE YOU HURT?

NO USE GETTING SORE TUBBY, MAYBE WE CAN PAY PEEVIE BACK SOME DAY—BUT HE SURE DID TURN THE TABLES ON US THAT TIME!

Ella Cinders—Wanted, A Shack

Jim took Ella out in the country to give her a sample of what married life would be like with him in the wide open spaces out West. Read on and weep!

WE'LL HAVE TO FIND AN ABANDONED SHACK UNTIL THE STORM IS OVER!

WHY DON'T YOU LOOK IN THE RENTAL DIRECTORY UNDER SHACKS, FURNISHED OR UNFURNISHED!

OH, JIM! I'M SCARED!

COURAGE, ELLA! WHEN THE LIGHTNING FLASHED I SAW A LITTLE HUT OVER THERE THROUGH THE TREES!

LET'S HURRY! I NEVER LIKED TO TAKE A SHOWER BATH WITH MY CLOTHES ON!

Have you written to Ella yet? Marriage or Career?? You tell her!

Bringing Up Father—

WELL, I GUESS THIS FINE VASE THAT DINTY AN' HIS WIFE SENT TO MAGGIE WILL SOFTEN HER HEART AN' OPEN A WAY TO FRIENDSHIP

SHE'S COMIN' IN NOW—I'LL WAIT OUT HERE AN' LISTEN TO HER CHUCKLE WITH JOY!

AND WE GOT FINED FOR PARKING ON FREEDOM AVENUE.

AND A COP HIT US WITH HIS CLUB FOR SHOOTING A TOY CANNON IN WASHINGTON SQUARE! SO WE'LL USE A MOTORCYCLE TODAY, KID!

JEFF, I GOTTA HAND IT TO YOU! WE'RE MAKING MORE NOISE THAN \$1000 WORTH OF FIREWORKS WOULD PRODUCE, AND WE WON'T GET ARRESTED FOR IT EITHER!

NO! AN' AFTER THIS IF YOU SEND A PRESENT TO MY WIFE, I SUGGEST A PILLOW OR ANYTHING SOFT.

Mutt and Jeff—There Are No Laws Against Six Cylinder Patriotism

JEFF, THIS IS THE GLORIOUS FOURTH, HOW'LL WE CELEBRATE? SHALL WE HIRE AN AUTO AND TAKE A NICE RIDE?

AIN'T YOU GOT NO MEMORY AT ALL? LAST FOURTH WE HIRED A CAR AND WE GOT FINED FOR SPEEDING, REMEMBER?

QUITE SO! AND WE ALSO GOT FINED FOR MAKING A LEFT TURN ON LIBERTY BOULEVARD.

AND WE GOT ARRESTED FOR SHOOT'G OFF FIRECRACKERS IN WASHINGTON PARK!

AND WE GOT FINED FOR PARKING ON FREEDOM AVENUE.

AND A COP HIT US WITH HIS CLUB FOR SHOOTING A TOY CANNON IN WASHINGTON SQUARE! SO WE'LL USE A MOTORCYCLE TODAY, KID!

JEFF, I GOTTA HAND IT TO YOU! WE'RE MAKING MORE NOISE THAN \$1000 WORTH OF FIREWORKS WOULD PRODUCE, AND WE WON'T GET ARRESTED FOR IT EITHER!

AN IDEAL WAY TO CELEBRATE, I CALLS IT.

The Gumps—High Lee—High Lo

LOOK AT THOSE SPARROWS—THE LITTLE PIRATES! THEY CHASE EVERY OTHER BIRD AWAY—I JUST BUILT THAT HOUSE FOR THE LITTLE WRENS—AND THEY'RE DRIVING THEM OUT—LOOK AT 'EM! I'LL TEACH THEM TO GO AROUND WRECKING HOMES.

BAM!

BAM!

BAM!

BAM!

BAM!

BAM!

BAM!

BAM!
